SUPPLEMENTARY INFORMATION: The U.S. Nuclear Regulatory Commission (NRC) has granted the request of Southern California Edison (the licensee) to withdraw its application dated July 29,

2011 (ADAMS Accession No. ML11215A090), as supplemented by letters dated September 14, 2012, September 27, 2012, September 28, 2012, November 5, 2012, February 15, 2013, March 19, 2013, and April 11, 2013 (ADAMS Accession Nos.: ML12263A300, ML12275A418, ML12272A092, ML12310A408, ML13051A451, ML13081A019, and ML13105A199, respectively), for proposed amendments to Facility Operating License Nos. NPF–10 and NPF–15 for the San Onofre Nuclear Generating Station (SONGS), Units 2 and 3, respectively, located in San Diego County, California.

The proposed amendments would have revised a number of Technical Specification (TS) requirements, to allow the licensee to use AREVA 16x16 reactor fuel on a permanent basis in SONGS, Units 2 and 3. These changes included revising TS 5.7.1.5, Core Operating Limits Report (COLR), to update the methodology reference list to support the core design with the new AREVA fuel; revising TS 4.2.1, Fuel Assemblies, to include the description of the new fuel cladding material (M5); revising TS 2.1.1.2, Reactor Safety Limits, to identify a fuel centerline melt safety limit for the AREVA fuel with corresponding adjustments made to account for the burnable absorber fuel rods; and incorporating fuel burnup limits consistent with AREVA M5 clad fuel assemblies into the SONGS licensing basis.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on February 14, 2012 (76 FR 8292). However, by letter dated July 1, 2013 (ADAMS Accession No. ML13183A412), the licensee withdrew the proposed change. For further details with respect to this action, see the application for amendment dated July 29, 2011, as supplemented by letters dated September 14, 2012, September 27, 2012, September 28, 2012, November 5, 2012, February 15, 2013, March 19, 2013, and April 11, 2013, and the licensee's letter dated July 1, 2013, which withdrew the application for license amendment.

Dated at Rockville, Maryland, this 8th day of July, 2013.

For the Nuclear Regulatory Commission.

Brian Benney,
Senior Project Manager, SONGS Special Projects Branch, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549–0213.

Extension:

Rule 6h–1, SEC File No. 270–497; OMB Control No. 3235–0555.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) (“PRA”), the Securities and Exchange Commission (“Commission”) has submitted to the Office of Management and Budget (“OMB”) a request for approval of extension of the previously approved collection of information provided for in Rule 6h–1 (17 CFR 240.6h–1) under the Securities Exchange Act of 1934, as amended (“Act”) (15 U.S.C. 78a *et seq.*).

Section 6(h) of the Act (15 U.S.C. 78f(h)) requires national securities exchanges and national securities associations that trade security futures products to establish listing standards that, among other things, require that: (i) Trading in such products not be readily susceptible to price manipulation; and (ii) the market on which the security futures product trades has in place procedures to coordinate trading halts with the listing market for the security or securities underlying the security futures product. Rule 6h–1 implements these statutory requirements and requires that (1) the final settlement price for each cash-settled security futures product fairly reflect the opening price of the underlying security or securities, and (2) the exchanges and associations trading security futures products halt trading in any security futures product for as long as trading in the underlying security, or trading in 50% of the underlying securities, is halted on the listing market.

It is estimated that approximately 1 respondent per year, consisting of a designated contract market not already registered as a national securities exchange under Section 6(g) of the Exchange Act that seeks to list or trade security futures products, will incur an average burden of 10 hours per year to comply with this rule, for a total burden of 10 hours. At an average cost per hour of approximately \$379, the resultant total internal cost of compliance for all respondents is \$3,790 per year (1 respondent × 10 hours/respondent × \$379/hour).

Compliance with Rule 6h–1 is mandatory. Any listing standards

established pursuant to Rule 6h–1 would be filed with the Commission as proposed rule changes pursuant to Section 19(b) of the Act, and would be published in the **Federal Register**.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

Applicants’ Representations

1. The Trust is registered under the Act as an open-end management investment company with multiple series and organized as a Maryland

statutory trust. The Adviser is an Illinois state banking corporation that is registered under the Investment Advisers Act of 1940 and serves as investment adviser to the 13 series of the Trust (“Existing Funds”), all of which rely on one of the Prior Orders. The distributor for the Existing Funds is Foreside, a Delaware limited liability company. Applicants request relief for the Existing Funds and for any additional Funds, as defined in the Prior Applications.

2. The Prior Applications stated that the Funds would not make the DTC book-entry dividend reinvestment service available for use by Beneficial Owners for reinvestment of their cash proceeds. The Prior Applications also stated that “[b]rokers may, however, offer a dividend reinvestment service which uses dividends to purchase Shares on the secondary market at market value.” In addition, the Prior Applications included several representations and a condition noting that Shares could be acquired from the Funds and the Funds would issue Shares in Creation Units only. The applicants seek an order amending the Prior Orders (“Amended Order”) so that the representations and condition A.2 specifically permit the Funds to operate the “Distribution Reinvestment Program,” as described below.²

3. The Trust will make the DTC book-entry Dividend Reinvestment Service (“DTC Dividend Reinvestment Service”) available for use by the beneficial owners of Shares (“Beneficial Owners”) through DTC Participants for reinvestment of their cash dividends.³ DTC Participants whose customers participate in the program will have the distributions of their customers automatically reinvested in additional whole Shares issued by the applicable Fund at NAV per Share. Shares will be issued at NAV under the DTC Dividend Reinvestment Service regardless of whether the Shares are trading in the secondary market at a premium or discount to NAV as of the time NAV is calculated. Thus, Shares may be purchased through the DTC Dividend Reinvestment Service at prices that are higher (or lower) than the contemporaneous secondary market trading price. Applicants state that the

² All entities that currently intend to rely on the Amended Order are named as applicants. Any other entity that relies on the Amended Order in the future will comply with the terms and conditions of the application.

³ Some DTC Participants may not elect to utilize the DTC Dividend Reinvestment Service. Beneficial Owners will be encouraged to contact their broker to ascertain the availability of the DTC Dividend Reinvestment Service through such broker.
