

can be executed at that time, or the number of contracts that can be executed at a given price or prices.

The Commission believes that this proposed rule change recognizes the desire of the marketplace to provide a single price to a request to fill a large order that a single member might not be able to fill. The Commission believes that any anticompetitive effect of this proposal is limited by requiring that there be a request for a single price and that the order be sufficiently large.¹⁰ In addition, the Commission notes that under the proposed rule change, a single crowd participant may voice a bid or offer independently from, and differently from, the specialist and other members of a trading crowd in order to execute the entire order or part of the order.¹¹

Finally, the Commission finds that the proposed rule change is designed to effectively limit the circumstances in which collective action is permissible.

IV. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,¹² that the proposed rule change (SR-Phlx-2001-33) is approved, as amended.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹³

Margaret H. McFarland,

Deputy Secretary.
