

can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting*: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <https://www2.ed.gov/fund/grant/apply/appforms/appforms.html>.

5. *Performance Measures*: Section 4625(a)(4)(C) of the ESEA provides the basis for one performance measure for the FSCS program: the percentage and number of individuals targeted for services and who receive services during each year of the project period. The 2022 FSCS NFP established an additional set of indicators: student chronic absenteeism rates; student discipline rates, including suspensions and expulsions; school climate information, which may come from student, parent, or teacher surveys; provision of integrated student supports and stakeholder services; expanded and enriched learning time and opportunities; family and community engagement efforts and impact; information on the number, qualifications, and retention of school staff, including the number and percentage of fully certified teachers, disaggregated by race and ethnicity, and rates of teacher turnover; graduation rates; changes in school spending information; collaborative leadership and practice strategies, which may include building the capacity of educators, principals, other school leaders, and other staff to lead collaborative school improvement structures, such as professional learning communities; regularly convening or engaging all initiative-level partners, such as LEA representatives, city or county officials, children's cabinets, nonprofit service providers, public

housing agencies, and advocates; regularly assessing program quality and progress through individual student data, participant feedback, and aggregate outcomes to develop strategies for improvement; and organizing school personnel and community partners into working teams focused on specific issues identified in the needs and assets assessment.

6. *Continuation Awards*: In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things, whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, whether the grantee has made substantial progress in achieving the performance targets in the grantee's approved application.

In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).
