SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the correction of an inventory of human remains and associated funerary objects under the control of the Robert S. Peabody Institute of Archaeology, Andover, MA. The human remains and associated funerary objects

were removed from the Etowah site, Bartow County, GA and Little Egypt site, Murray County, GA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

This notice further corrects the number of associated funerary objects published in a Notice of Inventory Completion in the **Federal Register** (70 FR 54075-54076, September 13, 2005) and initially corrected in a Notice of Inventory Completion Correction in the **Federal Register** (83 FR 65726-65727, December 21, 2018). In June 2021, the Rochester Museum & Science Center in Rochester, NY, transferred control of human remains and associated funerary objects to the Robert S. Peabody Institute of Archaeology to aid in the repatriation of ancestral remains and belongings from Etowah. These human remains and associated belongings had been removed by Warren K. Moorehead between 1925 and 1928 and given to the Rochester Museum & Science Center in 1931. The updated counts and descriptions of the associated funerary objects reflect this transfer. Two additional items are counted among the associated funerary objects in this correction notice—one that was recently identified and one that had been stolen from the Peabody Institute and has been returned. Transfer of control of all the items listed in this correction notice has not occurred.

Title of Collection: Leasing of Sulfur or Oil and Gas in the Outer Continental Shelf (30 CFR part 550, part 556, and part 560).

Abstract: This ICR concerns the paperwork requirements in the regulations under 30 CFR part 550, part 556, and part 560 and the related notices to lessees and operators (NTL). This ICR also concerns the use of forms to process bonds, transfer interest in leases, and file relinquishments.

The OCS Lands Act, as amended (43 U.S.C. 1331 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS and all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs; balance orderly energy resource development with protection of human, marine, and coastal environments; ensure the public a fair return on the resources of the OCS; and preserve and maintain free enterprise competition. Also, the Energy Policy and Conservation Act of 1975 prohibits certain lease bidding arrangements (42 U.S.C. 6213(c)).
