SUPPLEMENTARY INFORMATION:

Title of Collection: National Science Foundation-Managed Honorary Awards.
OMB Approval Number: 3145–0035.
Expiration Date of Approval: January 31, 2024.

Type of Request: Intent to seek approval to revise an information collection for three years.

Abstract: The National Science Foundation (NSF) administers several external awards, among them the President's National Medal of Science, the Alan T. Waterman Award, the National Science Board (NSB) Vannevar Bush Award, the NSB Public Service Award, the Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM) program, and the Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST) program. The full descriptions for these programs, including nominating requirements, may be found at the following website: <https://www.nsf.gov/awards/presidential.jsp>.

Use of the Information: Following are brief outlines of the honorary award programs:

- *President's National Medal of Science.* Statutory authority for the President's National Medal of Science is contained in 42 U.S.C. 1881 (Pub. L. 86–209), which established the award and stated that “(t)he President shall . . . award the Medal on the recommendations received from the National Academy of Sciences or on the basis of such other information and evidence as . . . appropriate.”

- *Alan T. Waterman Award.* Congress established the Alan T. Waterman Award in August 1975 (42 U.S.C. 1881a (Pub. L. 94–86)) and authorized NSF to “establish the Alan T. Waterman Award for research or advanced study in any of the sciences or engineering” to mark the 25th anniversary of the National Science Foundation and to honor its first Director. The annual award recognizes an outstanding young researcher in any field of science or engineering supported by NSF. In addition to a medal, the awardee receives a grant of \$1,000,000 over a five-year period for scientific research or advanced study in any field of science or engineering.

- *Vannevar Bush Award.* The Vannevar Bush Award honors truly exceptional lifelong leaders in science and technology who have made substantial contributions to the welfare of the Nation through public service activities in science, technology, and public policy. The National Science Board established this award in 1980 in the memory of Vannevar Bush, who served as a science advisor to President Franklin Roosevelt during World War II, helped to establish Federal funding for science and engineering as a national priority during peacetime, and was behind the creation of the National Science Foundation.
