SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Fast Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery; OMB Control Number 0704-0553.

Type of Request: Revision.
Number of Respondents: 300,000.
Responses per Respondent: 1.
Annual Responses: 300,000.
Average Burden per Response: 10 minutes.

Annual Burden Hours: 50,000.
Needs and Uses: The information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient and timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and

stakeholders on the Agency’s services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are noncontroversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Title; Associated Form; and OMB Number: Disposition of Remains—Reimbursable Basis and Request for Payment of Funeral and/or Interment Expense, DD Forms 2065 and 1375; OMB Control Number 0704–0030.

Needs and Uses: This collection is needed to support our Service Members and other federal agencies by providing mortuary services, transportation, funeral and interment, support for deceased dependents of our Service Members; and transportation and mortuary service support requested by other federal agencies. This also allows the person authorized to direct disposition of our Service Members remains to be reimbursed for authorized expenses incident to death.

The DD Form 2065 records the sponsor's disposition instructions for the remains and to record the associated cost for necessary services and supplies. If the remains are shipped to the United States, the sponsor will be required to complete and sign DD Form 2065, selecting one of three options. A signed copy of this form will accompany the remains to the port mortuary. The DD Form 2065 is presented to the sponsor by the Casualty Assistance Officer (CAO) who will aid the sponsor in the

completion of the DD Form 2065. Once the form is completed, the CAO will return the completed form to Service Casualty Office (SCO). The sponsor will then submit payment to the Army budget office by a vehicle of their choosing. The SCO will then upload the DD Form 2065 in the Defense Casualty Information Processing System (DCIPS). The sponsor is typically a family member of the deceased. The Privacy Act Statement is on the form, and this is how respondents are notified of the appropriate disclosures.

The DD Form 1375 is the form on which payment of interment allowance will be requested. The DD Form 1375 is presented to the sponsor by the CAO who will aid the sponsor in the completion of the DD Form 1375. The sponsor is typically a family member of the deceased. Once the form is completed the CAO will return the completed form to the SCO. The claim must be signed by the claimant and include all documents *e.g.*, receipts for services performed or paid for. The Military Service will then adjudicate the claim and process the payment to the sponsor. The Military Service will upload the DD Form 1375 claim packet into DCIPS. The Privacy Act Statement is on the form, and this is how respondents are notified of the appropriate disclosures.
