Natural Resources Conservation Service

Notice of Availability of Finding of No Significant Impact and Environmental Assessment for Use of NRCS Conservation Practices To Address Natural Resource Concerns on Non-Federal Lands in the New England States and New York

AGENCY: Natural Resources Conservation Service, U.S. Department of Agriculture.

ACTION: Notice of Availability of finding of no significant impact and environmental assessment.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended; the Council of Environmental Quality Guidelines (40 CFR Part 650); and the Natural Resources Conservation Service Regulations (7 CFR Part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental assessment (EA) has been prepared for the use of NRCS conservation practices to address natural resource concerns on non-federal lands in the New England States and New York. The environmental assessment of this federally assisted action indicates that the provision of financial assistance to implement common conservation practices

identified within the EA will not result in significant individual or cumulative impacts on the quality of the human environment, particularly when focusing on the significant adverse impacts that NEPA is intended to help decision makers avoid and mitigate against. As a result of these findings, Ms. Margo L. Wallace (Connecticut), Ms. Joyce Swartzendruber (Maine), Ms. Christine Clarke (Massachusetts), Mr. George Cleek, IV, (New Hampshire), Mr. Ron Alvarado (New York), Ms. Roylene Rides at the Door (Rhode Island), and Ms. Judith M. Doerner (Vermont), State Conservationists, have made a Finding of No Significant Impact (FONSI) and determined that the preparation and review of an environmental impact statement are not required.
