Frequency of Response: On occasion and annual reporting requirements; Third party disclosure.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 39,000 hours.

Total Annual Cost: None.

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents

may, however, request confidential treatment for information they believe to be confidential under 47 CFR Section 0.459 of the Commission's rules.

Needs and Uses: On August 6, 2007, the FCC released a *Report and Order and Further Notice of Proposed Rulemaking* (“R&O and FNPRM”), In the Matter of Assessment and Collection of Regulatory Fees for Fiscal Year 2007, MD Docket No. 07–81, FCC 07–XX, in which it applied regulatory fee obligations to interconnected Voice over Internet Protocol (VoIP) providers. As a result of this action, the FCC is modifying FCC Form 159, 159–C, and 159–E to accommodate this new category of entities subject to regulatory fees.

The Commission created a streamlined electronic form, FCC Form 159–E, to associate a mailed or faxed payment with regulatory fees, which are filed on-line. Pertinent information is taken directly from the regulatory fee electronic filing system (Fee Filer) and populated on the FCC Form 159–E, which can be printed by the filer. The FCC Form 159–E, essentially a simple payment voucher, contains summary information, which distinguishes the payment but not detailed information about the fee(s). Specific associated fee information is available on a separate report, which the filer does not need to remit. Beginning with the FY 2005 regulatory fees, the Commission has required FCC Form 159–E to accompany all payments derived from the regulatory fee electronic filing system, except on-line payments, which do not require any paper submission. Payment may be made by check or money order, credit card or wire transfer.

The Commission uses this information to apply credit for the remittance against all regulatory fees within the associated electronic submission. The payment instrument must be in the dollar amount specified on the FCC Form 159–E for full credit to be applied.

Expanded use of the FCC Form 159–E is possible in the future as additional streamlining for this process is implemented. This form may be used in lieu of pre-populated FCC Form 159s, which are currently produced to facilitate remittance for various electronic filings. The FCC Form 159–E may, therefore, impact users of all electronic filing systems, as well as users of an FCC bill paying system (currently Fee Filer and the Red Light Display system).

This information collection may affect some individuals or households; however, the Commission has in place a registration process <http://>
