

information collection requirements, including the validity of the methodology and assumptions used;

- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA proposes to extend the Office of Management and Budget's (OMB) approval of the collection of information (paperwork) requirements necessitated by the Coke Oven Emissions Standard (29 CFR 1910.1029). The Agency is requesting a reduction in burden hours from 56,238 hours to 51,756 hours. The 4,482 hour reduction is necessary to reflect the January 5th final rule that reduced the frequency with which employers must provide urinary cytology examinations to their employees from every six months to annually.

The Agency will include this summary in its request to OMB to extend the approval of these collection of information requirements.

Type of Review: Extension of currently approved information collection requirements.

Title: Coke Oven Emissions Standard.
OMB Number: 1218-0128.

Affected Public: Business or other for-profit; Federal Government; State, Local or Tribal Government.

Frequency: On occasion.

Average Time Per Response: Varies from 5 minutes (.08 hour) for a secretary to maintain record to 4 hours to complete a medical examination.

Estimated Total Burden Hours: 51,756.

Estimated Cost (Operation and Maintenance): \$933,064.

Title: Contract Modifications, NASA FAR Supplement Part 18-43.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Aeronautics and Space Administration (NASA) is requesting renewal of an existing collection to ensure engineering changes are made quickly and in a cost-effective manner. Proposals supporting such change orders contain detailed information which enables the Government to obtain the best goods and services for the best prices.

NASA procurement and technical personnel use the information to

manage the contract. Change proposals are submitted whenever a change order is used which increases the contractor's cost to perform the contract. Without change orders, NASA would often be unable to obtain the best goods and services at the best prices.

II. Method of Collection

NASA collects this information electronically where feasible, but information may also be collected by mail or fax.
