SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC–555 "Records Retention Requirements."
2. *Sponsor:* Federal Energy Regulatory Commission.
3. Control No. 1902–0098.

The Commission is now requesting that OMB approve with a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary to enable the Commission to carry out its responsibilities in implementing the statutory provisions Sections 301, 304 and 309 of the Federal Power Act (FPA) (16 U.S.C. 825, 825c and 825h), Sections 8, 10, and 16 of the Natural Gas Act (NGA) (Pub. L. 75–688) (15 U.S.C. 717–717w) and Section 20 of the Interstate Commerce Act (ICA 49 U.S.C. 20). The regulations for preservation of records establish retention periods, necessary guidelines and requirements to sustain retention of applicable records for the regulated public utilities, natural gas and oil pipeline companies subject to FERC's jurisdiction. These records will be used by the regulated companies as the basis for their required rate and tariff filings and reports for the Commission. In addition, the records will be used by the Commission's audit staff during compliance reviews, by enforcement staff during investigations and for special analyses as deemed necessary by the Commission. The records retained by jurisdictional companies as directed by the Commission are the result of a mandatory requirement.

On January 27, 2000, FERC issued a final rule (Order No. 617) amending its records retention regulations for public utilities and licensees, natural gas and oil pipeline companies. These changes included revising the general instructions and shortening various records retention schedules. Order No. 617's objective was to reduce or eliminate burdensome and unnecessary regulatory requirements. It has been over three years since Order No. 617 took effect on January 1, 2001, and there has been sufficient time for jurisdictional companies to implement Order No. 617's provisions. Therefore in

responding to this notice, the Commission is interested in knowing if the jurisdictional companies have obtained substantial reductions in the recordkeeping burden for maintaining their records under the revised retention periods. In addition, the Commission is interested in learning if and what savings were achieved by the jurisdictional companies by freeing up storage space formerly used for retaining records. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 parts 125, 225 and 356.

5. *Respondent Description:* The respondent universe currently comprises 535 companies (on average per year) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 1,285,070 total hours, 535 respondents (average per year), 1 response per respondent, and 2402 hours per respondent for recordkeeping (average).

7. *Estimated Cost Burden to Respondents:* 1,285,070 hours/2080 hours per years × \$107,185 per year = \$66,221,263 or \$123,778 per respondent.

Statutory Authority: Sections 301, 304 and 309 of the Federal Power Act (FPA) (16 U.S.C. 825, 825c and 825h), Sections 8, 10, and 16 of the Natural Gas Act (NGA) (Pub. L. 75–688) (15 U.S.C. 717–717w) and Section 20 of the Interstate Commerce Act (ICA 49 U.S.C. 20).

Secretary.
