Total Annual Burden: 7,995 hours.

Total Annual Cost: \$600.

Nature and Extent of Confidentiality: Confidentiality is an issue to the extent that individuals and households provide personally identifiable information, which is covered under the Commission's system of records notice (SORN), FCC/CGB–3, "National Deaf-Blind Equipment Distribution Program," which became effective on February 28, 2012.

Privacy Impact Assessment: The Commission completed a Privacy Impact Assessment (PIA) on December 31, 2012. The PIA may be reviewed at http://www.fcc.gov/omd/privacyact/Privacy_Impact_Assessment.html. The

Commission is in the process of updating the PIA with respect to the Commission's adoption of rules in document FCC 16–101 on August 4, 2016, which converted the pilot program to a permanent program without change to the PII covered by these information collections.

Needs and Uses: Section 105 of the Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA) added section 719 to the Communications Act of 1934, as amended (the Act). Public Law 111–260, 124 Stat. 2751 (2010); Public Law 111–265, 124 Stat. 2795 (2010) (making technical corrections); 47 U.S.C. 620. Section 719 of the Act requires the Commission to establish rules that define as eligible for up to \$10,000,000 of support annually from the Interstate Telecommunications Relay Service Fund (TRS Fund) those programs that are approved by the Commission for the distribution of specialized customer premises equipment designed to make telecommunications service, Internet access service, and advanced communications, including interexchange services and advanced telecommunications and information services, accessible by low-income individuals who are deaf-blind. 47 U.S.C. 620(a), (c). Accordingly, on April 6, 2011, the Commission released document FCC 11–56, published at 76 FR 26641, May 9, 2011, adopting rules to establish the National Deaf-Blind Equipment Distribution Program (NDBEDP), also known as "iCanConnect," as a pilot program. See 47 CFR 64.610(a) through (k). The FCC's Consumer and Governmental Affairs Bureau launched the pilot program on July 1, 2012. In an *Order* released on May 27, 2016, document FCC 16–69, published at 81 FR 36181, June 6, 2016, the Commission extended the pilot program through June 30, 2017, at which time distributing equipment and providing related services under the pilot program will cease.

On August 5, 2016, the Commission released the *Report and Order*, document FCC 16–101, published at 81 FR 65948, September 26, 2016, adopting rules to establish the NDBEDP as a permanent program. See 47 CFR 64.6201 through 64.6219. In document FCC 16–101, the Commission clarified that the pilot program will not terminate until after all reports have been submitted, all payments and adjustments have been made, and all wind-down activities have been completed, and no issues with regard to the NDBEDP pilot program remain pending. Information collections related to NDBEDP pilot program activities are

included in OMB Control Number 3060–1146, Implementation of the Twenty-First Century Communications and Video Accessibility Act of 2010, Section 105, Relay Services for Deaf-Blind Individuals, CG Docket No. 10–210, which will expire June 30, 2018.

For a period of 60 days following the publication of this document in the **Federal Register** announcing OMB approval of the information collection associated with the *Report and Order*, document FCC 16–101, new and incumbent entities may apply for certification to participate in the permanent NDBEDP. To minimize any disruption of service in the transition between the pilot program and the permanent program, the FCC's Consumer and Governmental Affairs Bureau will announce its selection of the entities certified to participate in the NDBEDP permanent program as soon as possible, but such certifications will not become effective before July 1, 2017.

Because the information collection burdens related to NDBEDP pilot program activities overlap in time with the information collection burdens related to NDBEDP permanent program activities, the Commission sought approval for a new collection for the information burdens associated with the permanent NDBEDP.

In document FCC 16–101, the Commission adopted rules requiring the following:

(a) Entities must apply to the Commission for certification to receive reimbursement from the TRS Fund for NDBEDP activities.

(b) A program wishing to relinquish its certification before its certification expires must provide written notice of its intent to do so.

(c) Certified programs must disclose to the Commission actual or potential conflicts of interest.

(d) Certified programs must notify the Commission of any substantive change that bears directly on its ability to meet the qualifications necessary for certification.

(e) A certified entity may present written arguments and any relevant documentation as to why suspension or revocation of certification is not warranted.

(f) When a new entity is certified as a state's program, the previously certified entity must take certain actions to complete the transition to the new entity.

(g) Certified programs must require an applicant to provide verification that the applicant is deaf-blind.

(h) Certified programs must require an applicant to provide verification that the

applicant meets the income eligibility requirement.

(i) Certified programs must re-verify the income and disability eligibility of an equipment recipient under certain circumstances.

(j) Certified programs must permit the transfer of an equipment recipient's account when the recipient relocates to another state.

(k) Certified programs must include an attestation on consumer application forms.

(l) Certified programs must conduct annual audits and submit to Commission-directed audits.

(m) Certified programs must document compliance with NDBEDP requirements, provide such documentation to the Commission upon request, and retain such records for at least five years.

(n) Certified programs must submit reimbursement claims as instructed by the TRS Fund Administrator, and supplemental information and documentation as requested. In addition, the entity selected to conduct national outreach will submit claims for reimbursement on a quarterly basis.

(o) Certified programs must submit reports every six months as instructed by the NDBEDP Administrator. In addition, the entity selected to conduct national outreach will submit an annual report.

(p) Informal and formal complaints may be filed against NEDBEDP certified programs, and the Commission may conduct such inquiries and hold such proceedings as it may deem necessary.

(q) Certified programs must include the NDBEDP whistleblower protections in appropriate publications.

Federal Communications Commission.

Secretary.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Parts 571 and 585

[Docket No. NHTSA-2016-0125]

RIN 2127-AK93

Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Final rule; delay of effective date.

SUMMARY: This action temporarily delays for 36 days the effective date of the rule entitled "Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles," published in the **Federal Register** on December 14, 2016.

DATES: The effective date of the final rule published at 81 FR 90416, December 14, 2016, is delayed until March 21, 2017.

FOR FURTHER INFORMATION CONTACT: For legal issues, contact Tom Healy, Office of Chief Counsel, at (202) 366-2992. For non-legal issues, contact Mike Pyne, Office of Vehicle Safety Compliance, at (202) 366-4171.

SUPPLEMENTARY INFORMATION: In accordance with the memorandum of January 20, 2017, from the Assistant to the President and Chief of Staff, entitled "Regulatory Freeze Pending Review,"¹ this action temporarily delays for 36 days² the effective date of the rule entitled "Federal Motor Vehicle Safety Standards; Minimum Sound Requirements for Hybrid and Electric Vehicles," published in the **Federal Register** on December 14, 2016, at 81 FR

90416. That rule satisfied the mandate in the Pedestrian Safety Enhancement Act (PSEA) of 2010 by establishing a new Federal motor vehicle safety standards (FMVSS) setting minimum sound requirements for hybrid and electric vehicles. This new standard requires hybrid and electric passenger cars, light trucks and vans, and low speed vehicles to produce sounds meeting the requirements of this standard, and applies to electric vehicles and those hybrid vehicles that are capable of propulsion in any forward or reverse gear without the vehicle's internal combustion engine operating.

To the extent that 5 U.S.C. 553 is applicable, this action is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(3)(A). Alternatively, NHTSA's implementation of this action without opportunity for public comment, effective immediately upon publication today in the **Federal Register**, is justified based on the good cause exceptions in 5 U.S.C. 553(b)(3)(B) and 553(d)(3). Seeking public comment is impracticable, unnecessary, and contrary to the public interest. The temporary 36-day delay in effective date is necessary to give Department officials the opportunity for further review and consideration of new regulations, consistent with the Assistant to the President's memorandum of January 20, 2017. Given the imminence of the effective date, seeking prior public comment on this temporary delay would have been impractical, as well as contrary to the public interest in the orderly promulgation and implementation of regulations. The imminence of effective date is also good cause for making this action effective immediately upon publication.

Authority: 49 U.S.C. 322, 30111, 30115, 30117, and 30166; delegation of authority at 49 CFR 1.95.

Issued on: February 1, 2017.

Jack Danielson,

Acting Deputy Administrator.
