AmeriCorps Attrition Overview Study

I. Background

Each year, the Corporation collects and reports on enrollment, service completion, and attrition of AmeriCorps participants. Attrition rates for participants in all AmeriCorps programs averaged 28 percent for programs years 1994–1998. As a maturing service organization, the Corporation needs to examine the AmeriCorps programs for attrition trends. An analysis of data on attrition will help the Corporation revise strategies of program development, recruitment, training, and supervision in order to reduce the rate of attrition.

II. Current Action

The Corporation seeks to conduct an in-depth study of the attrition patterns of its AmeriCorps*State and National, AmeriCorps*VISTA and AmeriCorps*NCCC programs. This study will entail telephone interviews of approximately 30 minutes in length with 1000 former AmeriCorps members. It will provide indicators of program success, differences among programs in retaining participants, individual characteristics of participants who tend to drop out, and combinations of member and program characteristics that appear to work well or work poorly.
