In its application, Southern states that it is currently involved in an extensive pipeline integrity program (PIP). As part of the PIP, Southern has identified for replacement, certain sections of pipe which were constructed using a mechanical coupling methodology. One of these areas is the North Main Loop Line from 271.65 to Milepost 281.27 (9.62 miles) located in Tuscaloosa County, Alabama. Southern proposes to abandon in place a portion of the North Main Loop Segment from Milepost 278.48 to Milepost 281.27 (2.79 miles). Also, Southern proposes to abandon and remove a portion of the North Main Loop Segment from Milepost 271.65 to Milepost 278.48 (6.83 miles). new segment of 24-inch pipeline will be installed in the current location of the 22-inch pipeline proposed to be abandoned. Southern stated that the installation of this segment of the 24-inch 2nd North Main Loop Line provide the sufficient capacity and the level of service necessary to continue to serve its existing customers in this area. The cost of constructing the 2nd North Main Loop Segment is estimated to be \$10.4 million.
