Lastly, EPA is announcing the availability of an amended final work plan for the registration review of azoxystrobin. The work plan was revised to incorporate changes to the data requirements for registration review. The revised work plan has removed a leaching/migration (non-guideline) special study and requires six new data requirements following additional review of available data for the antimicrobial uses of azoxystrobin. The azoxystrobin amended work plan may be found in registration review docket EPA-OPP-2009-0835, which is available on-line at <http://www.regulations.gov>.
