SUPPLEMENTARY INFORMATION:

Title: Equine Survey.

OMB Number: 0535–0227.

Expiration Date: 03/31/2014.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: To improve information regarding the equine industry, several State Departments of Agriculture are expected to contract the National Agricultural Statistics Service to conduct an Equine Survey in their State within the next 3 years. Equine activities offer unusually varied opportunities for rural development. In addition to providing the livelihood for breeders, trainers, veterinarians, and many others, the horse remains important to recreation. The number of operations, number of animals, and economic information will quantify the importance of the equine industry to State economies. Income data provides a view of the benefits that the industry provides to the State economy and a ranking of its relative importance within both the agricultural sector and the State's total economic sector. The expenditure information provides data regarding the multiplier effect of money from the equine industry, effects of wage rates paid to both permanent and part-time employees, and secondary businesses supported by the industry.

Authority: These data will be collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork

Reduction Act of 1995 (Pub. L. 104–13) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995). NASS also complies with OMB Implementation Guidance, “Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),” **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33376.

Estimate of Burden: Public reporting burden for this collection of information is estimated to be between 20 and 25 minutes per response.

Respondents: Horse owners, breeders, trainers, boarders.

Estimated Number of Respondents: 40,000.

Estimated Total Annual Burden on Respondents: 15,000 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods. All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, September 27, 2013.

Joseph T. Reilly

Associate Administrator.

Bureau of the Census

[Docket Number 130926838–3838–01]

2013 Company Organization Survey

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of Determination.

SUMMARY: The Bureau of the Census (Census Bureau) is conducting the 2013 Company Organization Survey. The survey's data are needed, in part, to update the multilocation companies in the Business Register. The survey,

which has been conducted annually since 1974, is designed to collect information on the number of employees, payroll, geographic location, current operational status, and kind of business for each establishment of companies with more than one location. We have determined that annual data collected from this survey are needed to aid the efficient performance of essential governmental functions, and that these data have significant application to the needs of the public and industry. The data derived from this survey are not available from any other source.

ADDRESSES: The Census Bureau will furnish report forms to organizations included in the survey, and additional copies are available upon written request to the Director, U.S. Census Bureau, Washington, DC 20233–0101.

FOR FURTHER INFORMATION CONTACT: Joy P. Pierson, Economic Planning and Coordination Division, U.S. Census Bureau, Room 8K319, Washington, DC 20233–6100 or by email at joy.p.pierson@census.gov.

SUPPLEMENTARY INFORMATION: Sections 182, 224, and 225 of Title 13, United States Code (U.S.C.), authorize the Census Bureau to undertake surveys necessary to furnish current data on the subjects covered by the major censuses. Years that end in 2 and 7 are considered “census years.” In non-census years, companies report only on basic company affiliation and operations of establishments not within the scope of the economic censuses. In these non-census years, all multi-establishment companies with 250 or more employees report survey information. Also, groups of smaller companies that are divided into panels may be selected to report information for one of the non-census years. Smaller companies may be selected if an organizational change within the company is indicated, or if they have been selected through the probability sampling procedure. The next economic census will be conducted for the year 2017. The data collected in the Company Organization Survey will be within the general scope, type, and character of those that are covered in the economic censuses. Forms NC–99001 (for multi-establishment companies) and NC–99007 (for single-location companies) will be used to collect the desired data.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of
