Agenda

The Chairman will start the meeting with introductions and adoption of agenda. The AP will discuss the Framework Action to Modify Red Grouper Annual Catch Limits and make recommendations to the Council.

—Meeting Adjourns—

The Agenda is subject to change, and the latest version along with other meeting materials will be posted on the Council's file server. To access the file server, the URL is <https://public.gulfcouncil.org:5001/webman/index.cgi>, or go to the Council's Web site and click on the FTP link in the lower left of the Council Web site (<http://www.gulfcouncil.org>). The username and password are both "gulfguest". Click on the "Library Folder", then scroll down to "Reef Fish AP 04-2016".

The meeting will be webcast over the Internet. A link to the webcast will be available on the Council's Web site, <http://www.gulfcouncil.org>.

Although other non-emergency issues not on the agenda may come before the Advisory Panel for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during this meeting. Actions of the Advisory Panel will be restricted to those issues specifically identified in the agenda and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kathy Pereira at the Gulf Council office (see **ADDRESSES**), at least 5 working days prior to the meeting.

Dated: March 14, 2016.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Groundfish Tagging Program.

OMB Control Number: 0648-0276.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 440.

Average Hours per Response: Return of a regular tag, 5 minutes; return of an internal archival tag, 20 minutes.

Burden Hours: 89.

Needs and Uses: This request is for extension of a currently approved information collection.

The groundfish tagging program provides scientists with information necessary for effective conservation, management, and scientific understanding of the groundfish fishery off Alaska and the Northwest Pacific. The program area includes the Pacific Ocean off Alaska (the Gulf of Alaska, the Bering Sea and Aleutian Islands Area, and the Alexander Archipelago of Southeast Alaska), California, Oregon, and Washington. Fish movement information from recovered tags is used in population dynamics models for stock assessment. There are two general categories of tags. Simple plastic tags (spaghetti tags) are external tags approximately two inches long, printed with code numbers. When a tag is returned, the tag number is correlated with databases of released, tagged fish to determine the net movement and growth rate of the tagged fish. Archival tags are microchips with sensors encased in plastic cylinders that record the depth, temperature or other data, which can be downloaded electronically from the recovered tags. The groundfish tagging and tag recovery program is part of the fishery resource assessment and
