[Docket No. CP25–79–000]

**ANR Pipeline Company; Notice of Schedule for the Preparation of an Environmental Assessment for the Heartland Project**

On February 20, 2025, ANR Pipeline Company (ANR) filed an application in Docket No. CP25–79–000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) and Authorization pursuant to Section 7(b) of the Natural Gas Act to construct, replace, and operate certain natural gas pipeline facilities. The proposed project is known as the Heartland Project (Project) and would expand ANR’s existing system to provide up to 473,000 dekatherms per day of incremental firm transportation service to meet market demand for increased natural gas supply in the Midwest United States.

On March 6, 2025, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff’s environmental document for the Project.
