FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1194; FR ID 195228]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of

information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before March 5, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1194.

Title: AM Station Modulation Dependent Carrier Level (MDCL) Notification Form; FCC Form 338.

Form Number: FCC Form 338.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents and Responses: 15 respondents and 15 responses.

Estimated Hours per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 15 hours.

Total Annual Costs: No cost.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in sections 154(i), 303, 310 and 533 of the Communications Act of 1934, as amended.

Needs and Uses: FCC Form 338, AM Station Modulation Dependent Carrier

Level (MDCL) Notification Form is used by AM broadcasters to implement MDCL technologies without prior authorization, by electronic notification within 10 days of commencing MDCL operations. In addition to the standard general contact information, FCC Form 338 solicits minimal technical data, as well as the date that MDCL control operations commenced.

In October 2015, the Commission adopted its proposal for wider implementation of MDCL control technologies and amended section 73.1560(a) of the rules. 47 CFR 73.1560(a)(1) is consequentially covered by this information collection. This rule specifies the limits on antenna input power for AM stations. AM stations using MDCL control technologies are not required to adhere to these operating power parameters. The rule provides that an AM station may commence MDCL control technology without prior Commission authority, provided that within ten days after commencing such operation, the AM station licensee submits an electronic notification of commencement of MDCL operation using FCC Form 338.

The Commission is now requesting a three year extension for this collection from the Office of Management and Budget (OMB).

Federal Communications Commission.

Katura Jackson,

Federal Register Liaison Officer.

SUPPLEMENTARY INFORMATION:

Background

GSA, in compliance with the FedRAMP Authorization Act of 2022, established the FSCAC, an advisory committee in accordance with the provisions of the Federal Advisory Committee Act, as amended (5 U.S.C. 10). The Federal Risk and Authorization Management Program (FedRAMP) within GSA is responsible for providing a standardized, reusable approach to security assessment and authorization for cloud computing products and services that process unclassified information used by agencies.

The FSCAC will provide advice and recommendations to the Administrator of GSA, the FedRAMP Board, and agencies on technical, financial, programmatic, and operational matters regarding the secure adoption of cloud computing products and services. The FSCAC will ensure effective and ongoing coordination of agency adoption, use, authorization, monitoring, acquisition, and security of cloud computing products and services to enable agency mission and administrative priorities. The purposes of the Committee are:

- To examine the operations of FedRAMP and determine ways that authorization processes can continuously be improved, including the following:
 - Measures to increase agency reuse of FedRAMP authorizations.
 - Proposed actions that can be adopted to reduce the burden, confusion, and cost associated with FedRAMP authorizations for cloud service providers.
 - Measures to increase the number of FedRAMP authorizations for cloud computing products and services offered by small businesses concerns (as defined by section 3(a) of the Small Business Act (15 U.S.C. 632(a)).
