#### POLICY JUSTIFICATION

*Belgium—Advanced Medium Range Air-to-Air Missiles for F-16 and F-35 Programs*

The Government of Belgium has requested to buy up to one hundred twenty (120) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM); and ten (10) AMRAAM C-8 Guidance Sections. Also included are spare AIM-120 control sections and containers; AIM-120C Captive Air Training Missiles (CATM); other spare parts, consumables, accessories, and repair/return support; classified software; books, technical documentation, and other publications; training and training equipment; munitions support and support equipment; and other related elements of logistical and program support. The estimated total cost is \$380 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a NATO Ally which is an important force for political stability and economic progress in Europe.

The proposed sale will improve Belgium's capability to meet current and

future threats by maintaining its F-16 and F-35 fleets in combat-ready status and providing a credible deterrent to regional threats. Belgium will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile Systems, Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Belgium.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22-63

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AIM-120C-8 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a supersonic, air launched, aerial intercept, guided missile featuring digital technology and micro-miniature solid-state electronics. AMRAAM capabilities include look-down/shoot-down, multiple launches against multiple targets, resistance to electronic countermeasures, and interception of high and low-flying and maneuvering targets. This potential sale will include Captive Air Training Missiles (CATM) as well as AMRAAM guidance section and control section spares.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used

to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Belgium can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Belgium.

## DEFENSE SECURITY COOPERATION AGENCY

2800 Defense Pentagon  
Washington, DC 20301-2800

November 9, 2022

The Honorable Nancy Pelosi  
Speaker of the House  
U.S. House of Representatives  
H-209, The Capitol  
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 22-60, concerning the Army's proposed Letter(s) of Offer and Acceptance to the Government of Lithuania for defense articles and services estimated to cost \$495 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

*James A. Hursch*  
James A. Hursch  
Director

BILLING CODE 6001-FR-C

Transmittal No. 22-60

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Lithuania

(ii) *Total Estimated Value:*

Major Defense Equipment * ..	\$ 440 million
Other .....	\$ 55 million

TOTAL ..... \$495 million

Funding Source: National Funds and Foreign Military Financing (FMF) (if approved)

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

*Major Defense Equipment (MDE):*

Eight (8) M142 High Mobility Artillery Rocket System (HIMARS) Launchers

Thirty-six (36) M30A2 Guided Multiple Launch Rocket System (GMLRS) Alternative Warhead (AW) Missile Pods with Insensitive Munitions Propulsion System (IMPS)

Thirty-six (36) M31A2 GMLRS Unitary High Explosive (HE) Missile Pods

Thirty-six (36) XM403 Extended

Range GMLRS (ER GMLRS) Alternative Warhead (AW) Missile Pods with IMPS

Thirty-six (36) XM404 Extended Range GMLRS (ER GMLRS) Unitary Pods with IMPS

Eighteen (18) M57 Army Tactical Missile System (ATACMS) Missile Pods

*Non-MDE:*

Also included are M28A2 Low Cost Reduced Range Practice Rocket (LCRRPR) pods; International Field Artillery Tactical Data System (IFATDS); battle management system Vehicle Integration Kits; ruggedized laptops; training

equipment publications for HIMARS and munitions; and other related elements of program and logistics support.

(iv) *Military Department: Army (LH-B-UEG)*

(v) *Prior Related Cases, if any: None*

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None known at this time*

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex*

(viii) *Date Report Delivered to Congress: November 9, 2022*

\* As defined in Section 47(6) of the Arms Export Control Act.

#### POLICY JUSTIFICATION

##### *Lithuania—M142 High Mobility Artillery Rocket System (HIMARS)*

The Government of Lithuania has requested to buy eight (8) M142 High Mobility Artillery Rocket System (HIMARS) Launchers; thirty-six (36) M30A2 Guided Multiple Launch Rocket System (GMLRS) Alternative Warhead (AW) Missile Pods with Insensitive Munitions Propulsion System (IMPS); thirty-six (36) M31A2 GMLRS Unitary High Explosive (HE) Missile Pods; thirty-six (36) XM403 Extended Range GMLRS (ER GMLRS) Alternative Warhead (AW) Missile Pods with IMPS; thirty-six (36) XM404 Extended Range GMLRS (ER GMLRS) Unitary Pods with IMPS; and eighteen (18) M57 Army Tactical Missile System (ATACMS) Missile Pods. Also included are M28A2 Low Cost Reduced Range Practice Rocket (LCRRPR) pods; International Field Artillery Tactical Data System (IFATDS); battle management system Vehicle Integration Kits; ruggedized laptops; training equipment publications for HIMARS and munitions; and other related elements of program and logistics support. The total estimated cost is \$495 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the military capability of a NATO Ally that is an important force for ensuring political stability and economic progress within Eastern Europe.

The proposed sale will contribute to Lithuania's military goals of updating its capability while further enhancing interoperability with the United States and other allies. Lithuania intends to use these defense articles and services to modernize its armed forces and expand its capability to strengthen its homeland defense and deter regional threats. Lithuania will have no difficulty

absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Grand Prairie, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require U.S. Government or contractor representatives to travel to Lithuania for program management reviews to support the program. Travel is expected to occur approximately twice per year as needed to support equipment fielding and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22-60

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

#### (vii) *Sensitivity of Technology*

1. The M142 High Mobility Artillery Rocket System (HIMARS) is a C-130 transportable wheeled launcher mounted on a 5-ton Family of Medium Tactical Vehicles truck chassis. HIMARS is the modern Army-fielded version of the M270 Multiple Launch Rocket System (MLRS) launcher and can fire all the MLRS Family of Munitions/Missiles (FOM) that includes Guided Multiple Launch Rocket System (GMLRS), Extended Range GMLRS, and the Army Tactical Missile System (ATACMS). Utilizing the FOM, the HIMARS can engage targets between 15 and 300 kilometers with Global Positioning System/Precise Positioning Service (GPS/PPS)-aided precision accuracy.

2. The GMLRS M31A2 Unitary is the Army's primary munition for units fielding the M142 HIMARS and M270A1 MLRS Launchers. The M31A2 Unitary is a solid propellant artillery rocket that uses GPS/PPS-aided inertial guidance to accurately and quickly deliver a single high-explosive blast fragmentation warhead to targets at ranges from 15-70 kilometers. The rockets are fired from a launch pod container that also serves as the storage and transportation container for the rockets. Each rocket pod holds six (6) total rockets.

3. The M30A2 GMLRS AW shares a greater than 90% commonality with the M31A1/A2 Unitary. The primary difference between the GMLRS Unitary and GMLRS AW is the replacement of the Unitary high explosive warhead with a 200-pound fragmentation warhead of pre-formed tungsten

penetrators which is optimized for effectiveness against a large area and imprecisely located targets. The munitions otherwise share a common motor, GPS/PPS-aided inertial guidance and control system, a multi-option fuzing height of burst capability, and effective range of 15-70 km.

4. The M57 ATACMS Unitary is a conventional, semi-ballistic missile that utilizes a 500-pound high explosive warhead. It has an effective range of between 70 and 300 kilometers and has increased lethality and accuracy over previous versions of the ATACMS due to a GPS/Precise Position System (PPS) aided navigation system.

5. The ER GMLRS missiles provide a persistent, responsive, all-weather, rapidly deployed, long range, surface-to-surface, area- and point-precision strike capability. The XM403 Alternative Warhead (AW), like GMLRS M30A1/A2, carries a 200-pound fragmentation assembly filled with high explosives which, upon detonation, accelerates two layers of preformed penetrators optimized for effectiveness against large area and imprecisely located targets. The XM404 Unitary, like GMLRS M31A1/A2, has a 200-pound class unitary with a steel blast-fragmentation case, designed for low collateral damage against point targets. Both variants of the ER GMLRS missiles maintain the accuracy and effectiveness demonstrated by the baseline GMLRS out to a maximum range of 150 km (double that of the GMLRS capability).

6. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

7. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

8. A determination has been made that Lithuania can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

9. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Lithuania.
