Abstract of Information Available

Three associated funerary objects were removed from the Eufaula Mound site (34Mi45), also known as the Groseclose site, in McIntosh County, OK. The three associated funerary objects are one lot of ceramic sherds, one lot of red ochre, and one lot of stone pipes. The site lies at the confluence of the North Canadian and Canadian Rivers, approximately 80 kilometers west of Spiro Mounds. Following extensive damage to the site from agricultural activities and looting, excavations were carried out by the Works Progress Administration in May–August 1940. The site was later flooded following the construction of the Eufaula Dam in 1964. Collections removed during the excavations were split between the Creek Memorial Museum (now known as the Creek Nation Council House) and SNOMNH. This site has both pre-contact and historic components. This notice includes only objects from the pre-contact component. These associated funerary objects were most likely interred during the local Harlan through early Norman phases (1100–1300 CE) of the Mississippian Period. Cultural affiliation was established through Tribal Consultation, and is supported by archaeological information, ethnographic information, ethnohistorical information, and tribal oral histories. To our knowledge, no potentially hazardous materials were used to treat the associated funerary objects.

This list of objects is an addition to the group of associated funerary objects previously identified in a Notice of Inventory Completion published in the **Federal Register** on January 27, 2020 (85 FR 4700).

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is clearly identified by the information available about the associated funerary objects described in this notice.

Determinations

SNOMNH has determined that:

- The three objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- There is a connection between the associated funerary objects described in this notice and the Caddo Nation of Oklahoma and the Wichita and Affiliated Tribes (Wichita, Keechi, Waco, & Tawakonie), Oklahoma.

Requests for Repatriation

Written requests for repatriation of the associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the associated funerary objects described in this notice to a requestor may occur on or after August 28, 2025. If competing requests for repatriation are received, SNOMNH must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the associated funerary objects are considered a single request and not competing requests. SNOMNH is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.
