Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroad has petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236, as detailed below.

[Docket Number FRA–2007–26965]

Applicant: CSX Transportation, Mr. J. Wesley Wheeler, Chief Mechanical Officer, Locomotives, 500 Water Street, Speed Code J–340, Jacksonville, Florida 32202.

CSX Transportation, Inc. (CSXT) seeks relief from the requirements of the rules, standards, and instructions set out in 49 CFR 236.586, to the extent that a visual inspection not be required as part of the daily or after-trip test on locomotives equipped with microprocessor equipment during a

proposed test period. The proposed test period would have the participation of CSXT, FRA, Cab Signal Original Equipment Manufacturer's, Brotherhood of Locomotive Engineers and Trainmen, and the United Transportation Union. CSXT believes that the test will demonstrate how the newer systems will allow safe train operation in train control territory without needing to perform a daily visual inspection of the cab signal and train control apparatus. The test is intended to also exhibit how microprocessor-based systems can continuously monitor themselves with onboard self diagnostics and take the appropriate safe action if a failure is detected. During the proposed test period, CSXT will keep these locomotives on a 92-day periodic inspection interval and will not perform daily visual inspections of its cab signal and train control equipment.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made and include a concise statement of the interest of the party in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

All communications concerning this proceeding should be identified by Docket Number (FRA–2007–26965) and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PI–401, 400 7th Street SW., Washington, DC 20590–0001. Communications received within 45 days of the date of this notice will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Saint Louis Metro

[Docket Number FRA–2007–27207]

Saint Louis Metro (Metro), the provider of bus, paratransit, and light rail transit in the St. Louis Metropolitan Area, seeks a permanent waiver of compliance from sections of Title 49 of the CFR for operation of its MetroLink Light Rail over two at-grade rail diamond crossings that constitute a "limited connection" with the general railroad system. (See Statement of Agency Policy Concerning Jurisdiction Over the Safety of Railroad Passenger Operations and Waivers Related to Shared Use of the Tracks of the General Railroad System by Light Rail and Conventional Equipment, 65 FR 42529 (July 10, 2000). See also Joint Statement of Agency Policy Concerning Shared Use of the Tracks of the General Railroad System by Conventional Railroads and Light Rail Transit Systems, 65 FR 42526 (July 10, 2000).)

MetroLink consists of 44.8 miles of light rail tracks located in St. Louis County and the City of St. Louis, Missouri; and St. Clair County, Illinois, for the purpose of providing rapid transit operations within the St. Louis Metropolitan area. The MetroLink alignment is a double-track light rail alignment running at grade, above grade, below grade, and in tunnels with two-car consists. Revenue hours are from 3:45 a.m. to 1:15 a.m. daily.
