

system(s) (type of facilities constructed and their operational status is required).

Any 38.6–40.0 GHz band licensees adjudged not to be providing substantial service will not have their license(s) renewed.

The requirement to demonstrate substantial service happens once every 10 years. Every licensee in this band will have to make a showing in the next three years because of when the licenses were originally issued and our decision to extend the deadline for some licensees. However, the number of respondents that will need to comply with this substantial service requirement of the 47 CFR 101.17 within the period covered by this submission is far less than the Commission originally sought and received OMB approval in 2006.

Without this information the Commission would not be able to carry out its statutory responsibilities.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.

FEDERAL COMMUNICATIONS COMMISSION

Radio Broadcasting Services; AM or FM Proposals To Change the Community of License

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The following applicants filed AM or FM proposals to change the

community of license: BBC BROADCASTING, INC., Station KPRI, Facility ID 21416, BP–20090226AAF, From FERNDAL, WA, To POINT ROBERTS, WA; CUMULUS LICENSING LLC, Station WYOK, Facility ID 8680, BPH–20120131AJS, From ATMORE, AL, To SARALAND, FL; GRACE BAPTIST CHURCH OF ORANGE BURG, Station NEW, Facility ID 171479, BMPED–20120131ALI, From RIDGEVILLE, SC, To ST. GEORGE, SC; RADIO LICENSE HOLDING II, LLC, Station WYAY, Facility ID 48727, BPH–20120131AHR, From GAINESVILLE, GA, To SANDING SPRINGS, GA.

DATES: Comments may be filed through April 16, 2012.

ADDRESSES: Federal Communications Commission, 445 12th Street SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Tung Bui, 202–418–2700.

SUPPLEMENTARY INFORMATION: The full text of these applications is available for inspection and copying during normal business hours in the Commission's Reference Center, 445 12th Street SW., Washington, DC 20554 or electronically via the Media Bureau's Consolidated Data Base System, http://svartifoss2.fcc.gov/prod/cdb/pubacc/prod/cdb_pa.htm. A copy of this application may also be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc., 445 12th Street SW., Room CY–B402, Washington, DC 20554, telephone 1–800–378–3160 or www.BCPIWEB.com.

BILLING CODE 6712–01–P

FEDERAL TRADE COMMISSION

Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination—on the dates indicated—of the waiting period provided by law and the premerger notification rules. The listing for each transaction includes the transaction number and the parties to the transaction. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.

EARLY TERMINATIONS GRANTED JANUARY 1, 2012 THRU JANUARY 31, 2012

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research
and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the
intention of the Agency for Healthcare
Research and Quality (AHRQ) to request
that the Office of Management and
Budget (OMB) approve the proposed
information collection project: "Use of
Deliberative Methods to Enhance Public
Engagement in the Agency for
Healthcare Research and Quality's
(AHRQ's) Effective Healthcare (EHC)
Program and Comparative Effectiveness
Research (CER) Enterprise." In
accordance with the Paperwork
Reduction Act, 44 U.S.C. 3501-3521,
AHRQ invites the public to comment on
this proposed information collection.

This proposed information collection
was previously published in the **Federal
Register** on December 1st, 2011 and
allowed 60 days for public comment. No
comments were received. The purpose
of this notice is to allow an additional
30 days for public comment.

DATES: Comments on this notice must be
received by March 16, 2012.

ADDRESSES: Written comments should
be submitted to: AHRQ's OMB Desk
Officer by fax at (202) 395-6974
(attention: AHRQ's desk officer) or by
email at
OIRA_submission@omb.eop.gov
(attention: AHRQ's desk officer).

Copies of the proposed collection
plans, data collection instruments, and
specific details on the estimated burden
can be obtained from the AHRQ Reports
Clearance Officer.

FOR FURTHER INFORMATION CONTACT:
Doris Lefkowitz, AHRQ Reports

Clearance Officer, (301) 427-1477, or by
email at doris.lefkowitz@AHRQ.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

*Use of Deliberative Methods To Enhance
Public Engagement in the Agency for
Healthcare Research and Quality's
(AHRQ's) Effective Healthcare (EHC)
Program and Comparative Effectiveness
Research (CER) Enterprise*

With this project, AHRQ seeks
evidence on the feasibility and
usefulness of public deliberation as an
approach to obtaining public input on
questions related to the conduct and use
of comparative effectiveness research
(CER). Although stakeholder
engagement has been central to the
Effective Healthcare (EHC) program to
date, public input has not traditionally
been used to inform and guide broad
strategies related to the use of evidence
to inform decisions. This study would
provide a research base to address this
gap. This project closely ties to AHRQ's
efforts to improve the rigor of methods,
as it will generate methodological
evidence through a randomized
controlled experiment comparing five
distinct methods of public deliberation
to find the most effective approaches for
involving the general public, including
members of AHRQ's priority
populations, in questions related to the
research enterprise.

Public deliberation is a strategy for
engaging lay people in informing
decisions when these decisions require
consideration of values and ethics in
addition to scientific evidence. It
includes three core elements:

(1) Convening a group of people
(either in person or via online
technologies to connect people in
remote locations),
(2) Educating the participants on the
relevant issue(s) through dissemination
of educational materials and/or the use
of content experts, and

(3) Having the participants engage in
a reason-based discussion, or
deliberation, on all sides of the issue(s).

AHRQ wishes to study the
effectiveness of public deliberation,
because it offers the opportunity to
obtain public input on complex topics
in an environment that encourages
participants to educate themselves
about the topic and discuss it in a
thoughtful, respectful manner.
Information about the topic is
intentionally neutral and respectful of
the full range of underlying values and
experience with health care issues in
the population. This approach is
designed to improve upon the
sometimes superficial or "top of mind"

responses that are often provided by
public opinion surveys. AHRQ views
public deliberation as a potential source
of higher quality public input on issues
fundamental to the Agency's mission,
such as the best and most effective ways
to use comparative effectiveness
research, than has heretofore been
available.

Several distinct deliberative methods
have been developed and used
previously. They share the three core
elements of public deliberation, but
differ on key features of implementation
such as duration, whether they take
place in-person or online, and the use
of content experts. Although there is
considerable theoretical and case study
literature endorsing the value of public
deliberation, there has been little
empirical research about its
effectiveness and even less about the
comparative merits of different
deliberative methods (Community
Forum Deliberative Methods Literature
Review, 2010).

The objectives of this study are to:

1. Obtain informed and deliberated
input from lay people on important
questions underlying AHRQ's research
program; and

2. Expand the evidence base for the
use of public deliberation methods for
exploring issues relevant to health care
research by comparing the outcomes of
five distinct deliberative methods to a
control condition and to each other.

This study is being conducted by
AHRQ through its contractor, the
American Institutes of Research (AIR),
pursuant to AHRQ's statutory authority
to (1) promote health care quality
improvement by conducting and
supporting both research that develops
and presents scientific evidence
regarding all aspects of health care and
the synthesis and dissemination of
available scientific evidence for use by
policymakers, among others, and (2)
conduct and support research, provide
technical assistance, and disseminate
information on healthcare and on
systems for the delivery of such care.
See 42 U.S.C. 299(b)(1)(A), (D), (F), and
(G); 42 U.S.C. 299(b)(2); 42 U.S.C.
299a(a)(1)-(4).

Method of Collection

To achieve the objectives of this study
the following activities and data
collections will be implemented:

(1) Participant recruitment—A short
screening questionnaire, including a
brief overview of the study, will be used
to recruit persons for the study.

(2) Educational Materials—
Educational materials are designed to
inform participants about the topics that
are being deliberated and will be
