

MLA ROW application, the FERC FEIS, and the FS supplemental analysis to determine whether to approve, approve with modifications, or deny the MLA ROW application through the NFS lands. As a cooperating agency, the BLM intends to rely on and adopt the FS supplemental analysis for its decision, as long as the analysis provides sufficient evidence to support the decision and the FS addresses the BLM's comments and suggestions to the BLM's satisfaction. Before issuing a decision on Mountain Valley's application, the BLM would need the FS's written concurrence. Through the concurrence process, if the BLM's decision is to approve the ROW, the FS would submit to the BLM any stipulations for inclusion in the ROW grant that are deemed necessary to protect the environment and otherwise protect the public interest consistent with 30 U.S.C. 185(h); 43 CFR 2885.11. The BLM decision would be documented in a separate ROD.

Public Engagement Process

Scoping was completed and summarized in the FERC FEIS (FEIS, Section ES-2, 1.4). Written, specific comments, including those that were relevant to NFS lands, identified concerns and issues that were addressed in the FEIS. Scoping will not be repeated and this SEIS will focus on the topics identified by the Fourth Circuit Court and others that are closely related to the Court's findings including:

JNF Forest Plan Amendment

- The purpose and effects of the Forest Plan amendment on resources including those within the utility corridor; soil; water; riparian; terrestrial; botanical, and aquatic threatened and endangered species; old growth; the ANST, scenic integrity; and,
- How the proposed amendment meets Planning Rule requirements.

Independent Review of Sedimentation Analysis

- An evaluation and assessment of erosion and sedimentation and its associated effects to water quality and threatened and endangered aquatic species;
- An evaluation of predicted effects in relation to anticipated mitigation effectiveness, supported with rationale; and,
- Disclosure on how previous concerns and comments related to erosion and its effects that were provided to the FERC have been satisfied.

New Information and Changed Circumstances

There is new information and changed circumstances to consider since the FS ROD was signed in December 2017. New information includes recent Federally listed threatened and endangered species and critical habitat designations. Changed circumstances include the status of the project and road use (see Purpose and Need for Action).

Additional opportunities for public comment will be provided when the Draft SEIS is available. A FS decision to amend the Forest Plan will be subject to the Forest Service predecisional administrative review procedures established in 36 CFR part 218 (per 36 CFR 219.59(b)). Those wishing to object must meet the requirements at 36 CFR part 218, subpart A and B for the project.

Tina Terrell,

Associate Deputy Chief, National Forest System.
