SUPPLEMENTARY INFORMATION:

Background

In an interim rule effective and published in the **Federal Register** on April 15, 2005 (70 FR 19877-19878, Docket No. 05-010-1), we amended the bovine tuberculosis regulations regarding State and zone classifications by raising the designation of California from modified accredited advanced to accredited-free. The interim rule was based on our determination that California met the criteria for designation as an accredited-free State.

Comments on the interim rule were required to be received on or before June 14, 2005. We received two comments by that date, from a State agricultural agency and a cattlemen's industry group. Both commenters supported the interim rule.

Therefore, for the reasons given in the interim rule, we are adopting the interim rule as a final rule.

This action also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

Further, for this action, the Office of Management and Budget has waived its review under Executive Order 12866.
