

days after publication of this notice. Public meetings have not been scheduled at this time but are anticipated to be conducted at various locations in the vicinity of the National Recreation Area during late spring of 2004. Public notice of the specific dates, times, and locations of the meetings will be provided in a newsletter, announced in local media, and posted on the Internet at <http://www.nps.gov/chat/pphtml/news.html>. Representatives of the National Park Service will be available at the public meeting to receive comments, concerns, and other input from the public related to the DEIS/GMP.

**ADDRESSES:** Copies of the DEIS/GMP are available from the Superintendent, Kevin Cheri, Chattahoochee River National Recreation Area, 1978 Island Ford Parkway, Atlanta, Georgia 30350-3400. Public reading copies of the DEIS/GMP will also be available for review at the following locations:

- Office of the Superintendent, Chattahoochee River National Recreation Area, 1978 Island Ford Parkway, Atlanta, Georgia 30350-3400. Telephone: 678-538-1210.
- Division of Planning and Compliance, Southeast Regional Office, National Park Service, Attention: David Libman, 100 Alabama Street, 1924 Building, Atlanta, Georgia 30303. Telephone: 404-562-3124, ext. 685.

- An electronic copy of DEIS/GMP is available for download in .pdf format on the Internet at <http://planning.nps.gov/plans.cfm> under the Chattahoochee River National Recreation Area section.

**FOR FURTHER INFORMATION CONTACT:**

Kevin Cheri, Superintendent, Chattahoochee River National Recreation Area, 1978 Island Ford Parkway, Atlanta, Georgia 30350-3400. Telephone: 678-538-1210.

**SUPPLEMENTARY INFORMATION:** If you wish to comment, you may submit your comments by any one of several methods. You may mail comments to Chattahoochee River National Recreation Area, Superintendent, 1978 Island Ford Parkway, Atlanta, GA 30350-3400.

You may also comment via the Internet by going to the Chattahoochee River NRA Web site at <http://www.nps.gov/chat> and selecting the "Contact Us" link. Please submit Internet comments as a plain text file avoiding the use of special characters and any form of encryption. Please also include "Attn: General Management Plan Team" and your name and return address in your Internet message. If you do not receive a confirmation from the system that we have received your

Internet message, contact the park directly at Chattahoochee River National Recreation Area, Phone 678-538-1210. Finally, you may hand-deliver comments to the Superintendent, Chattahoochee River NRA at 1978 Island Ford Parkway, Atlanta, GA 30350-3400.

Please note that names and addresses of people who comment become part of the public record. Anonymous comments will not be considered. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

The responsible official for this Environmental Impact Statement is Patricia A. Hooks, Regional Director, Southeast Region, National Park Service, 100 Alabama Street, SW., 1924 Building, Atlanta, Georgia 30303.

Dated: April 12, 2004.

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### Notice of Inventory Completion: Denver Museum of Nature & Science, Denver, CO

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of the Denver Museum of Nature & Science, Denver, CO. The human remains were removed from the Native Village of Kivalina, near Point Hope, AK.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the museum,

institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by the Denver Museum of Nature & Science professional staff in consultation with the Native Village of Kivalina.

In 1921, human remains representing one individual were removed from the Native Village of Kivalina, near Point Hope, AK, by Dr. A.M. Bailey during a museum-sponsored biological field expedition to Alaska. According to Dr. Bailey's field notes, the human remains were recovered "off the ground surface in the village of Kivalina in the lee of Point Hope, Alaska." No further information is recorded. The human remains were accessioned into the collection in 1921. No known individual was identified. No associated funerary objects are present.

Provenience information in museum records and consultation with the Native Village of Kivalina indicate that the human remains are those of a Native American who was an earlier inhabitant of the village.

Officials of the Denver Museum of Nature & Science have determined that, pursuant to 25 U.S.C. 3001, (9-10), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Denver Museum of Nature & Science also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Native Village of Kivalina.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Dr. Ella Maria Ray, NAGPRA Officer, Department of Anthropology, Denver Museum of Nature & Science, 2001 Colorado Boulevard, Denver, CO 80205, telephone (303) 370-6056, before July 7, 2004. Repatriation of the human remains to the Native Village of Kivalina may proceed after that date if no additional claimants come forward.

The Denver Museum of Nature & Science is responsible for notifying the Native Village of Kivalina that this notice has been published.

Dated: April 23, 2004.

**DEPARTMENT OF THE INTERIOR****National Park Service****Notice of Inventory Completion:  
Denver Museum of Nature & Science,  
Denver, CO**

**AGENCY:** National Park Service, Interior.  
**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of the Denver Museum of Nature & Science, Denver, CO. The human remains were removed from an unknown location in Florida.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by the Denver Museum of Nature & Science professional staff in consultation with representatives of the Miccosukee Tribe of Indians of Florida; Seminole Nation of Oklahoma; and Seminole Tribe of Florida, Dania, Big Cypress, Brighton, Hollywood & Tampa Reservations.

Between 1910 and 1911, human remains representing a minimum of one individual were removed from an unknown location in Florida. Sometime between 1910 and 1911, the human remains came into the possession of Jesse H. Bratley. After Mr. Bratley's death in 1948, the human remains came into the possession of Mr. Bratley's daughter, Hazel Bratley. In 1961, Mary W.A. Crane and Francis V. Crane purchased the human remains from Ms. Bratley. In 1983, the Cranes donated the human remains to the museum, and the museum accessioned the human remains into the collection in the same year. No known individual was identified. No associated funerary objects are present.

Based on provenience, museum records, research, and consultations with the Seminole Nation of Oklahoma; and Seminole Tribe of Florida, Dania, Big Cypress, Brighton, Hollywood & Tampa Reservations, the human remains are determined to be Native American of Seminole ancestry. Mr. Bratley resided in Homestead, FL, in 1910 and moved to Miami, FL, in 1911.

During this time, Mr. Bratley photographed Seminole people. His records mentioned that he acquired "sacral & pubic bones and some smaller ones," and recorded the culture of the human remains as "Seminole." Historical and archeological evidence establish that Seminole and Miccosukee people have been residents in central and southern Florida for several hundred years. In consultations, Seminole delegates confirmed their affiliation with earlier historic American Indians in Florida and indicated that the individual is probably one of their ancestors. The Miccosukee Tribe of Indians of Florida were consulted and requested that the human remains be reburied in Florida but did not indicate a direct cultural affiliation with the human remains.

Officials of the Denver Museum of Nature & Science have determined that, pursuant to 25 U.S.C. 3001 (9–10), the human remains listed above represent the physical remains of a minimum of one individual of Native American ancestry. Officials of the Denver Museum of Nature & Science also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Seminole Nation of Oklahoma and Seminole Tribe of Florida, Dania, Big Cypress, Brighton, Hollywood & Tampa Reservations.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Dr. Ella Maria Ray, NAGPRA Officer, Department of Anthropology, Denver Museum of Nature & Science, 2001 Colorado Boulevard, Denver, CO 80205, telephone (303) 370-6056, before July 7, 2004. Repatriation of the human remains to the Seminole Tribe of Florida, Dania, Big Cypress, Brighton, Hollywood & Tampa Reservations and Seminole Nation of Oklahoma may proceed after that date if no additional claimants come forward.

The Denver Museum of Nature & Science is responsible for notifying the Miccosukee Tribe of Indians of Florida; Seminole Nation of Oklahoma; and Seminole Tribe of Florida, Dania, Big Cypress, Brighton, Hollywood & Tampa Reservations that this notice has been published.

Dated: April 23, 2004.

**DEPARTMENT OF THE INTERIOR****National Park Service****Notice of Intent to Repatriate Cultural  
Items: U.S. Department of the Interior,  
National Park Service, Salinas Pueblo  
Missions National Monument,  
Mountainair, NM**

**AGENCY:** National Park Service, Interior.  
**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items in the possession of U.S. Department of the Interior, National Park Service, Salinas Pueblo Missions National Monument, Mountainair, NM, that meet the definition of "unassociated funerary objects" under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the superintendent, Salinas Pueblo Missions National Monument.

The 349 items are 1 antler artifact, 1 axe, 2 awls, 89 individual and 1 box of beads, 1 biface, 2 faunal bone artifacts, 7 individual and 10 bags of unworked faunal bone, 4 ceramic bowls, 3 pieces of charcoal, 12 concretions, 1 segment of cordage, 58 bags of corn kernels, 1 corn plant, 8 corn cobs, 25 crystals, 1 stone disk, 1 drill, 13 effigies, 1 fetish, 1 ceramic jar, 1 mano, 15 pendants, 5 pieces and 3 bags of pigment, 5 pipes, 1 pitcher, 13 polishing stones, 7 projectile points, 1 shaft straightener, 2 pieces of worked and 1 piece of unworked shell, 5 pieces and 8 bags of sherds, 16 unworked stones, 14 textile pieces, 1 tinkler, and 8 tubes.

In 1941, one ceramic bowl was recovered during legally authorized excavations conducted by Washington & Jefferson College at site LA 83, named Pueblo Pardo Ruin or Grey Town, as part of a field school program. Pueblo Pardo Ruin is located in Socorro County, NM, and, based on material culture and architectural features, dates to the Pueblo III and Pueblo IV periods (A.D. 1300 to 1630). Due to the proximity (3 miles south) and contemporaneous habitation of Pueblo Pardo Ruin with the pueblos of the Gran Quivira area, the college donated the ceramic bowl to the monument in 1942. Records indicate that the bowl was recovered from a burial and that the human remains were not collected.

Between 1965 and 1967, the other 348 cultural items described above were
