Centers for Disease Control and Prevention

[Program Announcement 00078]

National Conference of State Legislatures; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2000 funds for a grant program for the National Conference of State Legislatures to develop educational initiatives and provide an information forum for State policymakers on all areas of public health.

CDC is committed to achieving the health promotion and disease prevention objectives of “Healthy People 2010” a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the focus areas of: Arthritis, Osteoporosis and Chronic Back Conditions; Cancer; Diabetes; Disability and Secondary Conditions; Educational and Community-Based Programs; Environmental Health; Family Planning; Food Safety; Health Communication; Heart Disease and Stroke; HIV; Immunization and Infectious Diseases; Injury and Violence Prevention; Maternal, Infant and Child Health; Nutrition and Overweight; Occupational Safety and Health; Oral Health; Physical Activity and Fitness; Public Health Infrastructure; Respiratory Diseases; Sexually Transmitted Diseases; Substance Abuse; Tobacco Use; and Vision and Hearing. For the conference copy of “Healthy People 2010,” visit the internet site: <<http://www.health.gov/healthypeople>>

The broad purposes of the grant are to develop educational initiatives and provide an information forum on public health for policymakers, and to provide accurate, comprehensive, and timely information on public health issues to State policymakers for the development of effective public health policy at the State level. Priority areas in the first budget year are prevention, early detection, and control of disease and injury, the promotion of healthy behaviors, and strengthening State and local public health agencies.

B. Eligible Applicants

Assistance will be provided only to the National Conference of State Legislatures (NCSL). No other applications are solicited.

NCSL is the only bipartisan organization that represents legislatures and their staff of the 50 States. NCSL is a unique source for policy research, publications, consulting services, and meetings. NCSL tailors these services to State legislators, committees, and their staff. It is the only national conduit for State legislators to communicate with each other to share ideas. NCSL provides a unique network for sharing experiences and information with legislators and staffs throughout the nation.

The NCSL is the source for information on hundreds of policy issues. It connects legislators with policy innovators and national experts. It also uses a variety of technologies and resources to assist legislators and their staff that include:

1. Research and analysis for States on emerging and priority issues and innovative State enterprises.
2. Information Clearinghouse to track, evaluate, and disseminate information on State programs and State best practices.
3. Publications with formats designed specifically for the State legislators. NCSL produces regular reports, issue briefs, legislative briefs, and articles on issues critical to States.
4. Conducts National meetings and intensive workshops planned specifically for the legislators and their staff to support State-to-State communication on technical issues and assistance in solving State focused problems. As the nation's only organization that represents and links legislators and their staff from all 50 States, NCSL is in a unique position to disseminate information on public health issues to State legislatures and convene information-sharing meetings among State legislative representatives and staff.

Note: Public Law 104–65 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other.

C. Availability of Funds

Approximately \$1,314,300 will be available in FY 2000 to fund public health activities under this grant. Award amounts for each division activity are provided in Attachment I. It is expected the award will begin on or about September 2, 2000, and will be for a 12-month budget period within a project period of up to 3 years. Funding estimates may change.

Continuation awards within an approved project period will be made
