FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed revised information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the use of the Emergency Management Institute Resident Course Evaluation Form, which is used to identify problems with course materials, evaluate the quality of the course delivery, facilities and instructors. This notice corrects the **Federal Register** notice published June 14, 2002, to provide a 60-day comment period beginning the date of this notice. In addition, FEMA will not be requesting approval of this information collection under the emergency processing procedures in the Office of Management and Budget regulation 5 CFR 1320.13, but will follow the normal clearance procedures.

SUPPLEMENTARY INFORMATION: The Emergency Management Institute (EMI) develops courses and administers resident and nonresident training programs in areas such as natural

hazards, technical hazards, instructional methodology, professional development, leadership, exercise design and evaluation, information technology, public information, integrated emergency management, and train-the-trainer. A significant portion of the training is conducted by State emergency management agencies under cooperative agreements with FEMA.

In order to meet current information needs of EMI staff and management, the EMI uses this course evaluation form to identify problems with course materials, delivery, facilities, and instructors. This is a resident evaluation form. EMI staff will use the information to monitor and recommend changes in course materials, student selection criteria, training experience, and classroom environment. Reports will be generated and distributed to EMI management and staff. Without the information it will be difficult to determine the need for improvements and the degree of student satisfaction with each course. The respondents are students attending EMI resident courses. The evaluation form will be administered at the end of the course and will take no more than 10 minutes to complete. Contractors will scan the evaluation forms and generate the data reports using a computer program developed by a FEMA program analyst contractor. Evaluation forms are destroyed in accordance with FEMA's records retention schedule.
