

### What Are the Functions of the National Committee?

The National Committee on Foreign Medical Education and Accreditation was established by the Secretary of Education under section 102 of the Higher Education Act of 1965, as amended. The Committee's responsibilities are to:

- Evaluate the standards of accreditation applied to applicant foreign medical schools; and
- Determine the comparability of those standards to standards for accreditation applied to United States medical schools.

### What Items Will Be on the Agenda for Discussion at the Meeting?

The National Committee on Foreign Medical Education and Accreditation will review the standards of accreditation applied to medical schools by several foreign countries to determine whether those standards are comparable to the standards of accreditation applied to medical schools in the United States. Discussions of the standards of accreditation will be held in sessions open to the public. Discussions that focus on specific determinations of comparability are closed to the public in order that each country may be properly notified of the decision. The countries tentatively scheduled to be discussed at the meeting include Cayman Islands, Czech Republic, Dominica, Grenada, India, Ireland, Liberia, Netherlands, Poland, Saba, St. Lucia, Sweden, Taiwan, Thailand, and United Kingdom. Beginning August 30, you may call the contact person listed above to obtain the final listing of the countries whose standards will be discussed during this meeting. The listing of countries will also be posted on the Department of Education's Web site at the following address: <http://www.ed.gov/about/bdscomm/list/ncfmea.html>.

### How May I Obtain Electronic Access to This Document?

You may view this document, as well as all other Department of Education documents published in the **Federal Register**, in text or Adobe Portable Document Format (PDF) on the Internet at the following site: <http://www.ed.gov/legislation/FedRegister>.

To use PDF you must have Adobe Acrobat Reader, which is available free at this site. If you have questions about using PDF, call the U.S. Government Printing Office (GPO), toll free, at 1-888-293-6498; or in the Washington, DC, area at (202) 512-1530.

#### California Independent System Operator Corporation; Notice of Availability of Revised Summary Template

July 20, 2004.

1. Take notice that the template issued by Commission staff on July 15, 2004, contained an error. Staff is therefore issuing a revised template for filing information on Existing Transmission Contracts (ETCs). The revised optional template for filing ETC information is available on <http://www.ferc.gov> under "What's New."
2. The error in the original template affected responses to Questions 6 and 10. Selecting a radio button in response to either question nullified any response selected for the other question. The format of the template is otherwise unchanged.
3. Summary ETC information should be submitted using the Commission's electronic filing system (eFiling link at <http://www.ferc.gov>). Parties filing supplemental information should also use the eFiling system, provided the material is not restricted from publication and meets the maximum file number and file size restrictions for electronic filing.
4. All submissions are due by 5 p.m. Eastern time on July 23, 2004.<sup>1</sup>

**Linda Mitry,**

*Acting Secretary.*

**BILLING CODE 6717-01-P**

<sup>1</sup> This date was clarified by an Errata Notice issued on July 13, 2004 in this proceeding.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. PF04-11-000]

#### Sempra Energy International, Sempra Energy LNG; Notice of Pre-Filing Process for the Planned Port Arthur LNG Terminal and Pipeline Project and Request for Comments on Environmental Issues

July 20, 2004.

This is an initial notice that the staff of the Federal Energy Regulatory Commission (Commission) has begun the National Environmental Protection Act (NEPA) Pre-filing Process and will prepare an environmental impact statement (EIS) for Sempra Energy International's and Sempra Energy LNG's (collectively referred to as Sempra) planned Port Arthur LNG Terminal and Pipeline Project in Texas and Louisiana. The Commission will use this review process to gather input from the public and interested agencies on the planned project. Your input will help to determine which issues need to be evaluated in the EIS. Once the company has provided more information on the location of the facilities we will issue another notice and schedule scoping meetings.

Comments may be submitted in written form or verbally. Further details on how to submit written comments are provided in the Public Participation section of this notice.

This notice is being sent to Federal, State, and local government agencies; elected officials; landowners, environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. We<sup>1</sup> encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern.

#### Summary of the Proposed Project

Sempra proposes to construct and operate an LNG import terminal and two natural gas send-out pipelines. These facilities would be used to deliver up to 1.5 billion cubic feet per day (Bcf/d) of natural gas to existing intrastate and interstate pipeline systems. The facilities could be expanded to deliver an additional 1.5 Bcf/d of natural gas.

The LNG receiving terminal would be located in the City of Port Arthur, Jefferson County, Texas, on the Port

<sup>1</sup> "We," "us," and "our" refer to the environmental staff of the FERC's Office of Energy Projects.
