DEPARTMENT OF THE INTERIOR

National Park Service

Reinstatement, Record of Decision on the Final General Management Plan and Final Environmental Impact Statement for the Missouri National Recreational River (59-Mile District), Nebraska and South Dakota

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, as amended, and the regulations promulgated by the Council on Environmental Quality (40 CFR 1505.2), the National Park Service (NPS) is announcing the Record of Decision on the Final General Management Plan (GMP) and Final Environmental Impact Statement (FEIS) for the Missouri National Recreational River (MNRR), 59-Mile District. The MNRR is located in portions of Clay, Union, and Yankton counties, South Dakota and Cedar, Dixon, and Knox counties, Nebraska.

More specifically, the NPS is reinstating a Record of Decision previously suspended by the bureau. After the Record of Decision was originally signed, it was discovered that the FEIS was inadvertently not filed with the Environmental Protection Agency (EPA) as required by 40 CFR 1506.9. Accordingly, the NPS suspended the Record of Decision (see 65 FR 10542), suspended implementation of the GMP, filed the FEIS with EPA, and reopened the required 30-day period of no-action.

DATES: The Regional Director, National Park Service, Midwest Region, and the District Engineer, Omaha District, U.S. Army Corps of Engineers approved the

Record of Decision on December 17, 1999. That Record of Decision was reinstated effective April 10, 2000.

FOR FURTHER INFORMATION CONTACT: Paul Hedren, Superintendent, Missouri National Recreational River, P.O. Box 591, O'Neill, Nebraska 68763, or by e-mail to

MNRR_Superintendent@nps.gov, or call 402-336-3970.

SUPPLEMENTARY INFORMATION: The EPA published its notice of availability for the FEIS in the **Federal Register** on March 10, 2000 (65 FR 12992). The 30-day no-action period ended on April 10, 2000. No public comments were received during this period. Accordingly, the NPS has determined that no changes to the FEIS or the original Record of Decision are necessary. The Record of Decision as printed in the **Federal Register** on December 17, 1999 (64 FR 72359) is reinstated.

Dated: May 8, 2000.

David N. Given,

Acting Regional Director.

BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR

National Park Service

Niobrara National Scenic River

AGENCY: National Park Service, Interior.

ACTION: Amended Notice of Intent to prepare an Environmental Impact Statement for the General Management Plan, Niobrara National Scenic River, Nebraska.

SUMMARY: The National Park Service will prepare a General Management Plan (GMP) and an Environmental Impact Statement (EIS) for the Niobrara National Scenic River (hereinafter, "the Park"), Nebraska, in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA), and a court decision invalidating a similar 1996 GMP/EIS and ordering a new one. This notice is being furnished as required by NEPA Regulation 40 CFR 1501.7, and serves to amend the Notice of Intent as published in the **Federal Register** on February 28, 2000 (65 FR 10542).

To facilitate sound planning and environmental assessment in the preparation of this EIS, the National Park Service intends to both validate information previously acquired for the 1996 GMP/EIS, and obtain suggestions and information from other agencies and the public on several court-driven issues to be addressed in the new EIS.

The National Park Service will scope this GMP/EIS via the media, a newsletter, and through a World Wide Web page. Comments and participation in this scoping process are invited.

DATES: A project newsletter is being prepared, which is expected to be ready by the end of May 2000. The newsletter will contain specific information about how to provide input to the scoping phase of this project. Availability of the newsletter will be announced through local and regional media outlets. The newsletter will be sent to all addressees of record in the planning of the park's 1996 GMP/EIS, and to others who request the newsletter. To request a copy of the newsletter and to be added to the project mailing list, contact the park superintendent at 402-336-3970 or by writing to one of the addresses below.

ADDRESSES: Written comments and information should be directed to Superintendent, Niobrara National Scenic River, P.O. Box 591, O'Neill, Nebraska 68763; or by email, niob_gmp@nps.gov.

FOR FURTHER INFORMATION CONTACT: Superintendent, Niobrara National Scenic River, at either of the above addresses or at telephone number 402-336-3970.

SUPPLEMENTARY INFORMATION: Since the original notice of intent was published in February 2000, the United States Court of Appeals for the Eighth Circuit overturned the boundaries for the Niobrara National Scenic Riverway which has been established as part of a 1996 General Management Plan (GMP) for the park. A federal district court had overturned that GMP and associated Environmental Impact Statement (EIS) in a separate ruling. However, the district court ruling had retained the section of the GMP pertaining to the park's boundary. Therefore, the original notice of intent for the current project implied that boundaries were not within the scope of issues that would be addressed in the forthcoming GMP/EIS rewrite. The decision of the Court of Appeals has expanded the scope to include the park boundary.

The broad array of issues identified in the 1996 GMP/EIS, including land ownership, landscape conservation, water resource protection, hunting, fishing, and trapping, and visitor education and protection appear valid but reaffirmation will be sought through scoping. Specific examples of other issues that will be addressed in the GMP are: (1) the extent and manner in which partnerships can and will be employed to achieve management objectives, (2)
