[Docket No. FAA–2005–22100; Airspace
 Docket No. 05–AEA–16]

Amendment of Class E Airspace; Binghamton, NY

AGENCY: Federal Aviation
 Administration [FAA] DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace at Binghamton, NY. The development of multiple area navigation (RNAV) Standard Instrument Approach Procedures (SIAP) for numerous airports within the Binghamton, NY geographical area with approved Instrument Flight Rules (IFR) operations and the resulting overlap of designated Class E–5 airspace have made this action necessary. This action consolidates the Class E–5 airspace designations for five airspace and one heliport and results in the rescission of the five Class E–5 descriptions through separate rulemaking action. The area will be depicted on aeronautical charts for pilot reference.

EFFECTIVE DATE: 0901 UTC February 16, 2006.

SUPPLEMENTARY INFORMATION:

History

On August 23, 2005, a notice proposing to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by consolidating existing Class E–5 airspace designations in the Binghamton, NY metropolitan area and

incorporating those areas into the Binghamton, NY description was published in the **Federal Register** (70 FR 49221–49222). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. The rule is adopted as proposed.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace area designations for airspace extending upward from the surface are published in paragraph 6005 of FAA Order 7400.9N, dated September 1, 2005 and effective September 16, 2005, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be amended in the order.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR part 71) provides controlled Class E airspace extending upward from 700 ft above the surface for aircraft conducting IFR operations within the Binghamton, NY Class E–5 airspace description. The amendment consolidates the Class E–5 airspace descriptions for Cortland, NY; Elmira, NY; Ithaca, NY; Endicott, NY; and Sayre, PA, into one airspace designation for Binghamton, NY, and the designations for those areas will be removed by separate rulemaking.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation it is certified that this rule will not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
