

benefits, an organization needs to self certify annually to the Department of Commerce in writing that it agrees to adhere to the safe harbor's requirements, which includes elements such as notice, choice, access, and enforcement. It must also state in its published privacy policy statement that it adheres to the safe harbor. This list will be used by European Union organizations to determine whether further information and contracts will be needed by a U.S. organization to receive personally identifiable information. It will be used by the European Data Protection Authorities to determine whether a company is providing "adequate" protection, and whether a company has requested to cooperate with the Data Protection Authority. The list will also be accessed when there is a complaint logged in the EU against a U.S. organization, and used by the Federal Trade Commission and the Department of Transportation to determine whether a company is part of the safe harbor. It will be accessed if a company is practicing "unfair and deceptive" practices and has misrepresented itself to the public. In addition, the list will be used by the Department of Commerce and the European Commission to determine if organizations are signing up to the list on a regular basis.

Foreign-Trade Zones Board

[Docket 1-2001]

Foreign-Trade Zone 82—Mobile, AL; Application for Subzone Status Austal USA, LLC (Shipbuilding and Repair)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of Mobile, Alabama, grantee of FTZ 82, requesting special-purpose subzone status for the shipbuilding facility of Austal USA LLC (Austal) [an Austal Holdings, Inc. (of Australia)/Bender Shipbuilding, Inc. joint venture] in Mobile, Alabama. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on January 9, 2001.

The Austal shipyard (13 acres, 200,000 sq.ft.) is located at 100 Dunlap Drive in Mobile, Alabama. The facility (150 employees) is used for the construction of aluminum commercial and military vessels for domestic and international customers. Foreign components that may be used at the Austal shipyard (representing up to 9% of vessel value) include propulsion units, engines and control systems, generators, pumps, air-conditioning systems, pipes, iron and steel mill products, aluminum bars/rods/profiles/plates/sheets/wire/tanks/containers, solenoids, valves, multimeters, signaling equipment, articles of rubber, twine, glass, prefabricated structures, stoves/ranges, electric motors, navigation and electronic equipment, propellers, transmission shafts, lighting and electrical equipment, panels, consoles, printed circuit assemblies, regulating/controlling equipment, and telephonic apparatus (2000 duty rate range: free—14.9%, *ad valorem*).

FTZ procedures would exempt Austal from Customs duty payments on the foreign components (except steel mill products) used in export activity. On its domestic sales, the company would be able to choose the duty rate that applies to finished oceangoing vessels (duty free) for the foreign-origin components noted above. The manufacturing activity conducted under FTZ procedures would be subject to the "standard shipyard restriction" applicable to foreign-origin steel mill products (*e.g.*, angles, pipe, plate), which requires that Customs duties be paid on such items. The application indicates that the savings from FTZ procedures would help improve the facility's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is March 19, 2001. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to April 3, 2001).

A copy of the application will be available for public inspection at the following locations:

Office of the Port Director, U.S. Customs Service, Suite 3004, 150 North Royal Street, Mobile, AL 36602

Foreign-Trade Zones Board

[Docket 2-2001]

Foreign-Trade Zone 29—Louisville, KY; Application for Subzone ISP Chemicals Inc. (Chemical Plant) Calvert City, KY

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Louisville & Jefferson County Riverport Authority, grantee of FTZ 29, requesting special-purpose subzone status for the chemical plant facilities of ISP Chemicals Inc., located in Calvert City, Kentucky. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on January 9, 2001.

The facility is located on Highway 95, Calvert City, Kentucky. The application is requesting the use of zone procedures only for the portion of the facility that processes butanediol (B1D) into butyrolactone (BLO). This portion of the facility (4 acres, 525 employees) has the capacity to produce 210,000 pounds per day of BLO (HTS 2932.29.50 and 3824.90.47; duty rate 3.7%). Some 60 percent of the B1D is sourced from

abroad (HTS 2905.39.10; duty rate 7.9%).

FTZ procedures would exempt ISP from Customs duty payments on the foreign components used in export production. Some 35 percent of the BLO produced from the imported B1D in 1999 was exported. On its domestic sales, ISP would be able to choose the duty rates during Customs entry procedures that apply to BLO (3.7%) for the foreign input noted above. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is March 19, 2001. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to April 3, 2001.

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

Certain Cut-to-Length Carbon Steel Plate from Germany; Final Results of Countervailing Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Countervailing Duty Administrative Reviews.

SUMMARY: On September 8, 2000, the Department of Commerce (the Department) published in the **Federal Register** its preliminary results of administrative reviews of the countervailing duty order on certain cut-to-length carbon steel plate from Germany for the periods calendar year 1997 and calendar year 1998 (65 FR 54496). The Department has now completed these administrative reviews in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act). For information on the net subsidy for each reviewed company, and for all non-reviewed companies, please see the "Final Results of Review" section of this notice. We will instruct the U.S.

Customs Service (Customs) to assess countervailing duties as detailed in the "Final Results of Review" section of this notice.

EFFECTIVE DATE: January 17, 2001.

FOR FURTHER INFORMATION CONTACT:

Robert Copyak, Office of AD/CVD Enforcement VI, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-2786.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to 19 CFR 351.213(b), these administrative reviews cover only those producers or exporters of the subject merchandise for which the administrative reviews were specifically requested. Accordingly, these administrative reviews cover exporter Novosteel SA and producer Reiner Brach GmbH and Co. KG. We received timely allegations of additional subsidies, including allegations of upstream subsidies. We initiated examinations of three of these alleged subsidy programs and determined not to initiate examinations of the alleged upstream subsidy programs. See memorandum to Melissa G. Skinner, Director, Office of AD/CVD Enforcement VI, from Team, entitled *1997 and 1998 Administrative Reviews of the Countervailing Duty Order on Certain Cut-to-Length Carbon Steel Plate from Germany: Memorandum Regarding Affiliation, Cross-ownership, Upstream Subsidy Allegations, and Other Subsidy Allegations*, dated August 23, 2000. (This memorandum is on file in public version form in the public file room of room B-099 of the main Commerce building.) These administrative reviews cover 39 programs and the periods calendar year 1997 and calendar year 1998.

On September 8, 2000, the Department published in the **Federal Register** its preliminary results of administrative reviews. See *Certain Cut-to-Length Carbon Steel Plate From Germany; Preliminary Results of Countervailing Duty Administrative Reviews*, 65 FR 54496 (*Preliminary Results*). We invited interested parties to comment on the *Preliminary Results*. We received comments on October 10, 2000, and on October 27, 2000.
