General Information

PIRC projects help implement successful and effective parental

involvement policies, programs, and activities that lead to improvements in student academic achievement and strengthen partnerships among parents, teachers, principals, administrators, and other school personnel in meeting the education needs of children. Section 5563(b) of the Elementary and Secondary Education Act of 1965, as amended (ESEA), describes project requirements for the recipients of PIRC grants, including requirements to serve both rural and urban areas; to use at least one-half of the funds awarded to a project to serve areas with high concentrations of low-income children; and to use at least 30 percent of the funds awarded to a project to establish, expand, or operate early childhood parent education programs.

In this notice, we are proposing four separate priorities. We are also proposing eligibility requirements that define the nonprofit organizations that may apply and clarify the types of entities that may serve as the applicant and fiscal agent if the application is submitted by a consortium that includes a nonprofit organization and one or more local educational agencies (LEAs).

Background on Proposed Priorities

The first and second proposed priorities, addressing the geographic distribution of awards and statewide impact, respectively, would help ensure that, to the extent possible, PIRC project services would be widely available.

Proposed Priority 1, Geographic Distribution of Awards, is designed to help ensure that there will be a high-quality PIRC in most or all States. The highest-ranking application from a State would receive priority for an award, provided that the application is of sufficient quality that the proposed project will likely succeed in meeting the purposes of the PIRC program, in implementing effective activities, and in achieving intended results.

Additionally, we are proposing that to meet this proposed priority an applicant must provide services in a single State only.

Under the ESEA, each State establishes its own policies, standards, and requirements in a number of areas, including standards for adequate yearly progress under section 1111 of Title I of the ESEA, procedures for parental involvement and communication under section 1118 of Title I of the ESEA, and requirements related to supplemental educational services and other educational options available to parents under section 1116 of that title. It is important that there is a high-quality federally funded PIRC in most or all States to help ensure that PIRC services
