

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. New information shows that a worker separation occurred involving an employee of the Wallingford, Connecticut facility of Winchester Electronics located in Los Altos, California. Mr. John Mitchell provided engineering support services for the production of connectors and cable assemblies at the Wallingford, Connecticut location of the subject firm.

Based on these findings, the Department is amending this certification to include an employee of the Wallingford, Connecticut facility of Winchester Electronics, a subsidiary of Northrop Grumman, located in Los Altos, California.

The intent of the Department's certification is to include all workers of Winchester Electronics, a subsidiary of Northrop Grumman, Wallingford, Connecticut, who were adversely affected by a shift in production to Mexico.

The amended notice applicable to TA-W-55,674 is hereby issued as follows:

"All workers of Winchester Electronics, a subsidiary of Northrop Grumman, including leased workers of Hamilton Connections and Agency, Wallingford, Connecticut (TA-W-55,674), including employees of Winchester Electronics, a subsidiary of Northrop Grumman, Wallingford, Connecticut, located in Portsmouth, New Hampshire (TA-W-55,674A), and Los Altos, California (TA-W-55,674B), who became totally or partially separated from employment on or after September 22, 2003, through October 13, 2006, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974;" and

I further determine that all workers of Winchester Electronics, a subsidiary of Northrop Grumman, including leased workers of Hamilton Connections and Agency, Wallingford, Connecticut, including employees of Winchester Electronics, a subsidiary of Northrop Grumman, Wallingford, Connecticut, located in Portsmouth, New Hampshire, and Los Altos, California, are denied eligibility to apply for alternative trade adjustment assistance under section 246 of the trade Act of 1974.

Signed at Washington, DC, this 4th day of November, 2005.

Richard Church,

Certifying Officer, Division of Trade Adjustment Assistance.

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Summaries Unemployment Insurance (UI) Trust Fund Activities Reports

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

DATES: Submit comments on or before January 17, 2006.

SUPPLEMENTARY INFORMATION:

I. Background

Section 303(a)(4) of the Social Security Act (SSA) and Section 3304(a)(3) of the Federal Unemployment Tax Act (FUTA) require that all money received in the unemployment fund of a state be paid immediately to the Secretary of Treasury to the credit of the Unemployment Trust Fund (UTF). This is the "immediate deposit" standard.

Section 303(a)(5) of the SSA and Section 3304(a)(4) of the FUTA require that all money withdrawn from the UTF be used solely for the payment of unemployment compensation, exclusive of the expenses of administration. This is the "limited withdrawal standard".

Federal law (Section 303(a)(6) of the SSA) gives the Secretary of Labor the

authority to require the reporting of information deemed necessary to assure state compliance with the provisions of the SSA.

Under this authority, the Secretary of Labor requires the following reports to monitor state compliance with the immediate deposit and limited withdrawal standards:

ETA 2112: UI Financial Transactions

Summary, Unemployment Fund

ETA 8401: Monthly Analysis of Benefit Payment Account

ETA 8405: Monthly Analysis of Clearing Account

ETA 8413: Income—Expense Analysis

UC Fund, Benefit Payment Account

ETA 8414: Income—Expense Analysis

UC Fund, Clearing Account

ETA 8403: Summary of Financial

Transactions—Title IX Funds

These reports are submitted to the Office of Workforce Security (OWS) in the ETA which uses them to:

- Monitor cash flows into and out of the UTF to determine state compliance with the immediate deposit and limited withdrawal standards.

- Assure proper accounting for unemployment funds, an integral part of preparing the Department's consolidated financial statements, required by the Chief Financial Officer Act of 1990. The UTF is the single largest asset and liability on the statements.

- Reconcile the Department's records with the U.S. Treasury records.

- Develop UI research and actuarial reports, especially to monitor the solvency of the UTF.

The cited reports have been submitted monthly by the states the past several years in electronic format, with the exception of the ETA 8403. The Department is working with the U.S. Treasury to convert the ETA 8403 to an electronic format by December 31, 2006.

Since the reports are essential to the Department's financial statements and program oversight responsibilities, the Department seeks Office of Management and Budget (OMB) approval for a three year extension to March 31, 2009.

II. Desired Focus of Comments

Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension for the collection of the UI Trust Fund Summaries reports. Comments should:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of the information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed above in the **ADDRESSES** section of this notice.
