FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1291; FR ID 214777]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before June 17, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1291.

Title: Legacy High-Cost Support Recipient Initial Report of Current Service Offerings.

Form Number: N/A.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: Up to 110 respondents and 110 responses.

Estimated Time per Response: 16 hours.

Frequency of Response: One-time reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154, 254 and 303(r).

Total Annual Burden: 1,760 hours.

Total Annual Cost: No cost.

Needs and Uses: On November 18, 2011, the Commission released the *USF/ICC Transformation Order* (FCC 11-161) in which it comprehensively reformed and modernized the universal service and intercarrier compensation systems to ensure that robust, affordable voice and broadband service, both fixed and mobile, are available to Americans throughout the nation. In the *USF/ICC Transformation Order*, the Commission, among other things, adopted a requirement that all eligible telecommunications carriers (ETCs) offer broadband service in their supported area that meets certain basic performance requirements and report regularly on associated performance measures as a condition of receiving federal high-cost universal service support.

On October 27, 2020, the Commission adopted the *5G Fund Report and Order* (FCC 20-150) in which it, among other things, helped to complete the reform of the high-cost program begun in the *USF/ICC Transformation Order* by adopting additional public interest obligations and performance requirements for legacy high-cost support recipients, whose broadband-specific public interest obligations for mobile wireless services were not previously detailed. The public interest obligations adopted in the *5G Fund Report and Order* for each competitive ETC receiving legacy high-cost support for mobile wireless services require that such competitive

ETC (1) use an increasing percentage of its legacy support toward the deployment, maintenance, and operation of voice and broadband networks that support 5G meeting the adopted performance requirements within its subsidized service area(s), and (2) meet specific 5G broadband service deployment coverage requirements and service deployment milestone deadlines that take into consideration the amount of legacy support the carrier receives.

In order to gain a complete understanding of the current service offerings of each competitive ETC receiving legacy high-cost support for mobile wireless services, the Commission adopted rules that require each such competitive ETC to file an initial report containing information and certifications about its current mobile service offerings in each of its subsidized service areas and how it is using legacy support and whether it is offering mobile services in its subsidized service areas at rates that are reasonably comparable to those charged in urban areas. See 47 CFR 54.322(g), (h). The information and certifications provided in these initial reports will be used by the Commission to ensure that competitive ETCs receiving legacy high-cost support for mobile wireless services deploy 5G service by in their subsidized service areas consistent with the rules adopted by the Commission in the *5G Fund Report and Order*.

A revision to the currently approved information collection requirements under OMB 3060–1291 is necessary in order to remove a requirement that applies only to the annual reports that must be filed by competitive ETCs receiving legacy high-cost support for mobile wireless services information requirement, which was inadvertently included in the information collection under OMB 3060–1291 as previously approved by OMB.
