Commencing at the northwest corner of said section 6; thence along the north line of said section 6, S89°16'44" E 3507.82 feet to a point of intersection with the meander line surveyed in 1925

by H.G. Bardsley, Cadastral Engineer, during performance of the U.S.G.L.O. Dependent Resurvey of said Township 4 South, Range 34 East, Boise Meridian, said point is marked by a 1925 G.L.O. Brass Cap Monument as shown on the recorded and accepted Plat, the TRUE POINT OF BEGINNING; thence southwesterly along said 1925 meander line by the following courses (these courses are rotated to the basis of bearings stated above, and have been translated from chains to feet as requested by I.D.L.): thence S19°12'49" W 133.32 feet; thence S30°25'16" W 660.00 feet; thence S50°00'14" W 517.37 feet; thence S51°56'03" W 142.69 feet; thence S59°25'16" W 297.00 feet; thence S86°25'16" W 198.00 feet; thence N82°34'44" W 198.00 feet; thence S54°25'16" W 224.40 feet; thence S75°25'16" W 330.00 feet; thence S88°25'16" W 191.65 feet to a point of intersection with the westerly boundary of the land described in Quitclaim Deed instrument numbers 490751 and 490752, and depicted graphically on a Record of Survey on file in the Bingham County Courthouse, Blackfoot, Idaho; thence along said westerly boundary S00°42'23" W 2154.37 feet to a point on the ordinary high water line of the right bank of the Snake River, said point marked by a 1/2"x24" iron pin with red plastic cap marked PLS 9168; thence along said ordinary high water line S87°01'43" E 252.50 feet; thence N74°48'08" E 313.19 feet; thence N67°48'08" E 243.19 feet; thence N63°21'08" E 250.02 feet; thence N54°28'37" E 363.79 feet; thence N41°51'36" E 150.62 feet; thence N50°54'43" E 611.67 feet; thence N28°19'06" E 138.83 feet; thence N46°39'55" E 336.07 feet; thence N32°16'59" E 292.13 feet; thence N24°27'36" E 188.15 feet; thence N19°03'54" E 241.69 feet; thence N00°00'00" E 79.90 feet; thence N13°00'02" E 175.78 feet; thence N06°36'36" E 357.80 feet; thence N06°27'46" W 727.79 feet; thence N12°12'18" W 271.35 feet to a point of intersection with the north line of said section 6; thence along said north line N74°52'56" W 189.82 feet to the TRUE POINT OF BEGINNING.

Having relied on the report provided by experts of the Branch of Cadastral Survey and the findings therein, dated April 14, 2006, the following synopsis of key findings is provided in support of the application for disclaimer. The records for this area show an active flood plain adjoining the patented original government lots. Various channels have relicted and others expanded but there is no hard evidence

of an avulsion resulting in ownership from the other side (south side) of today's river location. Because of the active channels, erratic survey record, and the economic considerations for omitted lands, as laid out in the Wackerli Decision (Burt A. Wackerli, 73 I.D. 280 (1966)), the Branch of Cadastral Survey has determined and shown this land as accretions attaching to patented lands to the north in the Dependent Resurvey, Corrective Dependent Resurvey, Subdivision, and Survey, T.4 S., R. 34 E., B.M., filed November 17, 2006, in the Public Room at the BLM State Office in Boise, Idaho. Therefore, it is the opinion of this office that the Federal Government has no interest in this 118.27 acre parcel.

Anyone who wishes to present comments or objections in connection with the pending application and proposed disclaimer may do so by writing to Tom Dyer, State Director, at the above address. Comments, including names and street addresses of commentors will be available for public review at the BLM-Idaho State Office (see address above), during regular business hours, Monday through Friday, except holidays. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

If no valid objection is received, a Disclaimer of Interest may be approved stating that the United States does not have a valid interest in these lands.

Jerry L. Taylor,

Chief, Branch of Lands, Minerals and Water Rights, Resource Services Division.

(3) No action alternative, which would be to not authorize the ROW.

The BLM has selected the Proposed Action as its final decision in the ROD. The ROD will approve granting ROWs as described in the Proposed Action including: A coal-fired power plant site ROW and subsequent sale of the 1,281 acre power plant site to the proponent; transmission line alignment and substation ROWs; well field and water line ROWs; a railroad spur ROW; and access road ROWs. Various site-specific, applicant-committed mitigation measures will be implemented at the development stage to protect other resources and uses. Comments on the White Pine Energy Station Draft Environmental Impact Statement (EIS) received from the public and cooperating agencies were addressed in the Final EIS. The comments resulted in text modifications and the addition of new data used in the analysis of impacts in the Final EIS. The ROD for this project addresses only BLM's decisions for public lands and resources administered by BLM.
