SUPPLEMENTARY INFORMATION:

Background

On August 7, 2009, the Department published in the **Federal Register** the preliminary results of the administrative review of the antidumping duty order on stainless steel sheet and strip in coils (S4 in coils) from Mexico for the period July 1, 2007, through June 30, 2008. *See Stainless Steel Sheet and Strip in Coils From Mexico; Preliminary Results of Antidumping Duty Administrative Review and Intent Not To Revoke Order in Part*, 74 FR 39622 (August 7, 2009) (*Preliminary Results*). In the *Preliminary Results*, we invited parties to comment. In response to the Department's invitation to comment on the preliminary results of this review, Mexinox submitted a request for a public hearing and a case brief on September 4, 2009, and September 15, 2009, respectively. *See* Letter from Hogan & Hartson LLP (counsel for

The current deadline for the final results of this review is December 5, 2009.

Extension of Time Limits for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete the final results of an administrative review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend the 120 day time period for the final results up to 180 days.

The Department finds that it is not practicable to complete this review within the original time frame because additional analysis must be performed with respect to several complex issues raised by the parties, such as Mexinox's cost of production, etc. Accordingly, the Department is extending fully the time limit for completion of the final results of this administrative review until no later than February 3, 2010, which is 180 days after the date on which the preliminary results of review were published.

This extension is issued and published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: December 3, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Folding Metal Tables and Chairs From the People's Republic of China: Extension of Time Limit for the Final Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* December 9, 2009.

FOR FURTHER INFORMATION CONTACT: Giselle Cubillos, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-1778.

SUPPLEMENTARY INFORMATION:

Background

On July 30, 2008, the Department of Commerce ("Department") published the initiation of the administrative review of the antidumping duty order on folding metal tables and chairs from the People's Republic of China ("PRC"). *See Initiation of Antidumping and Countervailing Duty Administrative Reviews, Request for Revocation in Part, and Deferral of Administrative Review*, 73 FR 44220 (July 30, 2008). On July 7, 2009, the Department published the preliminary results of review. *See Folding Metal Tables and Chairs from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review*, 74 FR 32118 (July 7, 2009). This review covers the period June 1, 2007, through May 31, 2008.

Extension of Time Limit for Final Results of Review

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("Act"), the Department shall make a final determination in an administrative review of an antidumping duty order within 120 days after the date on which the preliminary results are published. The Act further provides that the Department may extend that 120-day period to 180 days after the preliminary results if it determines it is not practicable to complete the review within the foregoing time period.

On November 4, 2009, the Department published a notice extending the time limit until December 4, 2009, for the final results of this administrative review. *See Folding Metal Tables and Chairs from the People's Republic of*

China: Extension of Time Limit for the Final Results of Antidumping Duty Administrative Review, 74 FR 57146 (November 4, 2009).

The Department now finds that it is not practicable to complete the final results of the administrative review of folding metal tables and chairs from the PRC within the current deadline due to complex issues the parties have raised related to surrogate financial statements and market-economy purchases. We find that additional time is needed to complete these final results. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending by 14 days the time period for completion of the final results of this review. This extension makes these final results due 164 days after the date on which the preliminary results were published, *i.e.*, December 18, 2009.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: December 3, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION: The United States Patent and Trademark Office (USPTO) is establishing a PCT Task Force to consider the perspectives of interested parties concerned with improving the USPTO's activities as a receiving Office, an International Searching Authority (ISA), and an International Preliminary Examination Authority (IPEA), as well as of the PCT System as a whole. To support the operation of the Task Force, the USPTO will be holding a public meeting and inviting public comments. Further meetings may be announced as the Task Force develops its work.

The number of patent applications filed in the USPTO and other Offices has increased significantly over the last decade. As worldwide patent protection is increasingly requested, Patent Offices are struggling under the burden of this increasing workload. With 142 members, the PCT offers a comprehensive framework with widespread acceptance that can be used to address this challenge. To build upon this framework, the USPTO is considering how PCT applications could be included in worksharing efforts, and other process improvements such as allowing submission of prior art by applicants and third parties to further improve PCT processing.

This notice is to inform users of the PCT and others of this opportunity to help the USPTO in its strategy to improve efficiencies and optimize the usefulness of the PCT system.

The World Intellectual Property Organization (WIPO) recently completed a PCT user survey. The results of this survey are posted here: http://www.wipo.int/export/sites/www/pct/en/activity/pct_survey_2009.pdf. The survey respondents indicate that the PCT system is functioning generally well, but that there is room for improvement in the USPTO, as well as other Offices. Participants may wish to provide more detailed information regarding matters addressed in the survey, or raise new matters such as those items listed in the questions below. Comments upon one or more of the following would be helpful:
