

**DEPARTMENT OF HEALTH AND HUMAN SERVICES****National Institutes of Health****National Institute of Allergy and Infectious Diseases; Notice of Closed Meeting**

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

*Name of Committee:* National Institute of Allergy and Infectious Diseases Special Emphasis Panel; Human Leukocyte Antigen (HLA) and Killer-cell Immunoglobulin-like Receptor (KIR) Region Genomics in Immune-Mediated Diseases (U01 Clinical Trial Not Allowed).

*Date:* February 5, 2025.

*Time:* 10:00 a.m. to 5:00 p.m.

*Agenda:* To review and evaluate grant applications.

*Place:* National Institute of Allergy and Infectious Diseases, National Institutes of Health, 5601 Fishers Lane, Room 3G56, Rockville, MD 20892 (Video Assisted Meeting).

*Contact Person:* Maryam Rohani, Ph.D., Scientific Review Officer, Scientific Review Program, Division of Extramural Activities, National Institute of Allergy and Infectious Diseases, National Institutes of Health, 5601 Fishers Lane, Room 3G56, Rockville, MD 20892, (301) 761-6656, [maryam.rohani@nih.gov](mailto:maryam.rohani@nih.gov).

(Catalogue of Federal Domestic Assistance Program Nos. 93.855, Allergy, Immunology, and Transplantation Research; 93.856, Microbiology and Infectious Diseases Research, National Institutes of Health, HHS)

Dated: December 10, 2024.

**Lauren A. Fleck,**

*Program Analyst, Office of Federal Advisory Committee Policy.*

**DEPARTMENT OF HEALTH AND HUMAN SERVICES****Substance Abuse and Mental Health Services Administration****Agency Information Collection Activities: Submission for OMB Review; Comment Request**

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-0361.

**Project: SAMHSA Certified Community Behavioral Health Clinic—Expansion (CCBHC-E) Grant Program Evaluation (OMB No. 0930-XXXX)—NEW COLLECTION**

In FY 2022, SAMHSA awarded two new cohorts of its CCBHC-Expansion program, one for clinics interested in becoming CCBHCs that need planning and support to come into compliance with CCBHC Certification Criteria, and another for established CCBHCs seeking to expand, improve, and advance their services. The purpose of the CCBHC-E grants is to address problems of access, coordination, and quality of behavioral health care by establishing a standard definition and criteria for organizations certified as CCBHCs to ensure that all service recipients have access to a common set of comprehensive, coordinated services, with the ultimate goal of decreasing disparities in care and outcomes across communities.

SAMHSA is requesting clearance for eleven data collection instruments and forms related to the implementation and impact studies to be conducted as part of an evaluation of these cohorts. Data collected in this evaluation will help SAMHSA assess the degree to which activities at the clinic level and systems level affect the development, implementation, and sustainment of CCBHCs consistent with the certification criteria and the impacts of model adoption on client outcomes.

1. SAMHSA has developed a grantee web survey that will be administered twice to all 298 grant project directors, once during a first option year and again during a third option year. The survey consists of 76 questions the first time it is administered and 68 questions the second time it is administered. The survey includes mostly binary or multiple-choice response options and a limited number of open-ended questions. The survey will enable

respondents to complete the data collection instrument at a location and time of their choice, and its built-in editing checks and programmed skips will reduce response errors. SAMHSA estimates the web survey will take no more than 45 minutes to complete and expects a 100 percent response rate, for a total of 298 completed grantee surveys. Grantees will provide valuable insights into their experience with the CCBHC model; if they are not conducted, SAMHSA will not have adequate information to evaluate the extent to which Planning, Development, and Implementation (PDI) grantees come into full compliance with the certification criteria and Improvement and Advancement (IA) grantees sustain the model in a manner that is consistent with the CCBHC certification criteria.

2. SAMHSA has developed a protocol for annual interviews with all 26 grantee Government Project Officers (GPO)s during three option years. Interviews will last approximately one hour and focus on the types of support grantees need to successfully implement the model in the future and identify specific components of the certification criteria that were challenging for grantees to implement. SAMHSA will offer to conduct individual interviews or meet with groups of GPOs during regularly scheduled meetings. GPOs will provide valuable insights into CCBHC model implementation and factors that facilitate or impede implementation; if they are not conducted, SAMHSA will not glean essential insights into contextual factors that affect implementation of the CCBHC model, including adaptations grantees make to the model to align with their local service delivery system, grantee characteristics that might contribute to successful implementation, and the types of support grantees need to successfully implement the model in the future and the specific components of the certification criteria that were challenging for grantees to implement.

3. SAMHSA has developed a protocol for interviews with representatives from 50 organizations that support adults, youth, and family members with lived experience over the course of the first three option years. Interviews will last approximately one hour. State consumer, youth, and family member organizations will provide valuable insights into their own involvement in the planning and development of the model in respective states, and the perspectives of adults and youth who received CCBHC services and their families on various aspects of the CCBHC model; if they are not conducted, SAMHSA will not
