SUPPLEMENTARY INFORMATION: On March 15, 2002 (67 FR 11748), EPA solicited public comment on its proposal to promulgate Federal Implementation Plans (FIPs) under the Clean Air Act (CAA) for 39 Indian reservations in Idaho, Oregon, and Washington. The FIPs would include basic air quality regulations for the protection of

communities on those Indian reservations. These rules would be implemented and enforced by EPA. EPA received requests to extend the public comment period to allow more time to review the proposal and to prepare comments. EPA also received a request on behalf of the residents of the Yakama Indian Reservation to hold a public hearing.

As a result of the requests to extend the public comment period, EPA is re-opening the comment period for 60 days. All comments received or postmarked by October 10, 2002 will be considered in the development of a final rule. A copy of all comments, including the requests to extend the public comment period, have been placed into the docket and may be reviewed during normal business hours at the locations listed above. Interested parties are invited to comment on all aspects of EPA's March 15, 2002 proposal. Comments should be addressed to David Bray at the address listed above. EPA also invites interested parties to provide comments at a public hearing to be held on September 10, 2002 at 7 p.m. PDT at the Liberty Theater in Toppenish, WA.

Approval and Promulgation of Implementation Plans North Carolina: Approval of Revisions to The Open Burning Regulations Within the Forsyth County Local Implementation Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve the Local Implementation Plan (LIP) revision submitted by the Forsyth County Environmental Affairs Department, through the State of North Carolina, for the purpose of amending regulations relating to open burning, transportation conformity, and the general provisions section of the Air Quality Permits subchapter. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before September 9, 2002.
