Abstract of Information Available

Human remains representing, at least, five individuals have been identified. No associated funerary objects are present. These human remains were recovered through archaeological excavations conducted on and around Ganondagan State Park or through donated collections that were collected near Letchworth State Park. It is suspected that all of these remains were collected from disturbed contexts and were not removed from intact burials.

Consultation

Invitations to consult were sent to the Cayuga Nation; Seneca Nation of Indianans; Seneca-Cayuga Nation; Tonawanda Band of Seneca; and the Tuscarora Nation. The Seneca Nation of Indians and the Tonawanda Band of Seneca responded yes to NYOPRHP's request for consultation on this matter.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.

Determinations

The NYOPRHP has determined that:

- The human remains described in this notice represent the physical remains of five individuals of Native American ancestry.
- There is a connection between the human remains described in this notice and the Seneca Nation of Indians and the Tonawanda Band of Seneca.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains described in this notice to a requestor may occur on or after May 2, 2025. If competing requests for repatriation are received, the NYOPRHP must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The NYOPRHP is responsible for sending a copy of this notice to any consulting lineal descendant, Indian Tribe, or Native Hawaiian organization.

Abstract of Information Available

One cultural item has been requested for repatriation. The object of cultural patrimony is a beaded jacket.

The object in this notice is part of the Joseph Allen Skinner Museum collection, which was donated to the Trustees of Mount Holyoke College by Skinner after his death in 1946. Like many of the objects in the Skinner collection, there is no extant provenance information, and it is unclear when these objects were acquired, though pictures show the display of these objects by Skinner as early as 1934.

The jacket in the Skinner Museum collection is imbued with ongoing historical, traditional, and/or cultural importance to the Flandreau Santee Sioux Tribe. The jacket is embroidered with a widely practiced style of beadwork using culturally significant colors and designs.
