Background

On December 19, 2016, DHS published an interim final rule (IFR) in the **Federal Register** at 81 FR 92266 and received 17 public comments. In this IFR, USCIS amended its regulations governing the classification for Victims of Severe Forms of Trafficking in Persons; Eligibility for T Nonimmigrant Status, *see* Immigration and Nationality Act (INA) sec. 101(a)(15)(T), 8 U.S.C. 1101(a)(15)(T). On July 16, 2021, at 86 FR 37670, DHS published a document reopening the comment period for this rulemaking for 30 days, with the deadline to submit comments set at August 16, 2021. DHS has received a request from multiple stakeholders to extend the deadline for submitting public comments during the reopened public comment period. In response to that request, DHS is extending the reopened comment period for an additional 30 days, to provide a total of 60 days for the public to submit comments. Through this document, DHS is extending the comment period for the IFR published in the **Federal Register** at 86 FR 37670 until September 14, 2021. DHS will consider comments received during the entire public

comment period, including comments received since July 16, 2021.

Revision of Fee Schedules; Fee Recovery for Fiscal Year 2021

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule; delay of effective date.

SUMMARY: On June 16, 2021, the U.S. Nuclear Regulatory Commission (NRC) published a final rule that amends its regulations pertaining to user fees and annual fees charged to its applicants and licensees. These amendments are necessary to implement the Nuclear Energy Innovation and Modernization Act, which, beginning with fiscal year 2021, requires the NRC to recover, to the maximum extent practicable, approximately 100 percent of its annual budget less certain amounts excluded from this fee recovery requirement. In addition, the final rule also included improvements associated with fee invoicing to implement provisions of NEIMA. The final rule had an original effective date of August 16, 2021. This document delays the effective date of the final rule to August 20, 2021, to ensure that the rule has the 60-day delayed effective date required by the Congressional Review Act.

DATES: As of August 13, 2021, the effective date of the rule amending 10 CFR parts 15, 170, and 171 published at 86 FR 32146, June 16, 2021, is delayed until August 20, 2021.

SUPPLEMENTARY INFORMATION: On June 16, 2021 (86 FR 32146), the NRC published a final rule that amends the licensing, inspection, special project, and annual fees charged to its applicants and licensees. These amendments are necessary to implement the Nuclear Energy Innovation and Modernization Act (NEIMA), which, beginning with fiscal year (FY) 2021, requires the NRC to recover, to the maximum extent practicable, approximately 100 percent of its annual budget less certain amounts excluded from this fee recovery requirement. In addition, the final rule also included improvements associated with fee invoicing to implement provisions of NEIMA.

The FY 2021 final fee rule had an original effective date of August 16, 2021, which is 60 days after the date of publication in the **Federal Register**. The Congressional Review Act (CRA) requires a 60-day delay in the effective date of any rule determined to be a “major” rule¹ by the Office of Management and Budget (OMB). The OMB determined the FY 2021 final fee rule to be a major rule under the CRA. The 60-day delay in effective date begins with the date of publication in the **Federal Register** or the date of

¹ Under the CRA, a “major” rule is defined as a rule that OMB determines has resulted in or is likely to result in (1) an annual effect on the economy of \$100 million or more; (2) a major increase in costs for consumers, individual industries, Federal, State, or local government agencies, or geographical regions; or (3) a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based enterprises to compete with foreign-based enterprises in domestic and export markets.

congressional notification, whichever is later. Publication of the FY 2021 final fee rule occurred on Wednesday, June 16, 2021, and congressional notification occurred on Thursday, June 17, 2021; however, due to the Federal observance of the Juneteenth national holiday on Friday, June 18, 2021, and the weekend, the congressional notification was not formally recorded until Monday, June 21, 2021, a delay of four days. Therefore, to ensure that the rule has the 60-day delayed effective date required by the CRA, this document delays the effective date of the FY 2021 final fee rule until August 20, 2021.

Dated: August 10, 2021.

For the Nuclear Regulatory Commission.

Chief Financial Officer.
