Federal Emergency Management Agency

44 CFR Part 65

[Docket ID FEMA–2011–0002]

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Modified Base (1% annual-chance) Flood Elevations (BFEs) are finalized for the communities listed below. These modified BFEs will be used to calculate flood insurance premium rates for new buildings and their contents.

DATES: The effective dates for these modified BFEs are indicated on the following table and revise the Flood Insurance Rate Maps (FIRMs) in effect for the listed communities prior to this date.

ADDRESSES: The modified BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–4064, or (e-mail) luis.rodriguez1@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below of the modified BFEs for each community listed. These modified BFEs have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Federal Insurance and Mitigation Administrator has resolved any appeals resulting from this notification.

The modified BFEs are not listed for each community in this notice. However, this final rule includes the address of the Chief Executive Officer of the community where the modified BFE determinations are available for inspection.

The modified BFEs are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities.

These modified BFEs are used to meet the floodplain management requirements of the NFIP and also are

used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings. The changes in BFEs are in accordance with 44 CFR 65.4.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132, Federalism.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act of 1995 Analysis

This Second R&O adopts new or revised information collection requirements, subject to the Paperwork Reduction Act of 1995 (PRA) (Pub. L. 104-13, 109 Stat 163 (1995) (codified in 44 U.S.C. 3501-3520)). These information collection requirements will be submitted to the Office of Management and Budget (OMB) for review under section 3507(d) of the PRA. The Commission will publish a separate notice in the **Federal Register** inviting comment on the new or revised information collection requirements adopted in this document. The requirements will not go into effect until OMB has approved them and the Commission has published a notice announcing the effective date of the information collection requirements. In addition, we note that pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, *see* 44 U.S.C. 3506(c)(4), we previously sought specific comment on how the Commission might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

Synopsis of Order

1. In the Second R&O, the Commission addressed one of the issues set forth in the Further Notice of Proposed Rule Making (FNPRM) that accompanied the First Report and Order in this proceeding (75 FR 9797, March 4, 2010, FCC 10-24, *rel.* Feb. 23, 2010) (First R&O), and additionally addressed those issues set forth in the Notice of Proposed Rule Making in this proceeding, 24 FCC Rcd 5239 (2009) (Rural NPRM) that were not addressed in the First R&O. It set forth a waiver standard for Native American Tribes and Alaska Native Villages (Tribes) seeking to avail themselves of the Tribal Priority adopted in the First R&O, but

that do not have Tribal Lands as defined by the Commission. The Tribal Priority as adopted requires that a Tribe or Tribal-owned entity proposing a new radio station qualifying for the Tribal Priority must show that 50 percent or more of the proposed station's signal covers Tribal Lands. Not all Tribes possess reservations or other Tribal Lands, however. Because the record was not fully developed on this issue, rather than set forth an alternate coverage standard, the Commission stated it would be receptive to requests to waive the requirement of Tribal Land coverage, setting forth various factors that would be considered probative in a determination of the functional equivalent of Tribal Lands. The Second R&O also adopted some of the changes proposed in the Rural NPRM in the Commission's procedures for awarding new channel allotments and assignments under section 307(b) of the Communications Act, 47 U.S.C. 307(b); adopted a rule prohibiting FM translator applicants from proposing to change channels from the non-reserved to reserved bands and vice-versa; and codified existing standards for determining nighttime mutual exclusivity between applications to provide AM service that are filed in the same window.

2. In the FNPRM, the Commission noted the concern of some commenters that the Tribal Priority, as originally adopted in the First R&O, would benefit only those Tribes possessing Tribal Lands, as the Commission defined that term in the First R&O. The requirement that at least 50 percent of the proposed station's principal community contour cover Tribal Lands was designed to ensure that a facility qualifying for the Tribal Priority is primarily used for its intended purpose, namely, to assist Tribes in their mission of promulgating Tribal language and culture, promoting Tribal self-governance, and serving the specific needs of Tribal communities. Commenters noted, however, that while there are 563 Tribes in the United States, there are only 312 reservations, with some Tribes occupying more than one reservation. Thus, not all Tribes could avail themselves of the Tribal Priority as adopted.

3. The record on this issue was not as well-developed as the Commission anticipated. Commenters noted that the situations of different Tribes are extremely varied and are likely to require different showings, necessitating flexible standards. The Commission thus decided against adopting a specific standard for defining a functional equivalent of Tribal Lands. Rather than modify the Tribal Priority at this time,
