SUPPLEMENTARY INFORMATION: Section 9 of the Act prohibits the "taking" of endangered species such as the golden-cheeked warbler. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

Applicant

CT 620 Partnership, Ltd. plans to construct five residences on portions of 50.08 acres on Hughes Park Road near RR 620, Austin, Travis County, Texas. This action will indirectly impact the habitat of the golden-cheeked warbler. The development will eliminate approximately 16 acres of golden-cheeked warbler habitat which may result in the take of one to two golden-cheeked warbler territories. The applicant proposes to compensate for this incidental take of golden-cheeked warbler habitat by providing \$304,000 to the Balcones Canyonlands Preserve for the purchase and preservation of golden-cheeked warbler habitat; minimization of on site habitat destruction; education and encouragement of the homeowners in

the use of xeriscaping, clearing only between August 1 to March 1 when the warblers are not present; and prohibition of deer and bird feeders that encourage the growth of populations of species that parasitize, predate or out compete the golden-cheeked warbler or destroy its habitat. Alternatives to this action are not preferred because not developing the subject property with federally listed species present was not economically feasible and alteration of the project design would increase the impacts.
