

going forward, many small contractors and subcontractors will simply submit updated versions of workforce inclusion plans that they have submitted previously. For purposes of this burden estimate, however, FHFA has assumed that all small contractors and subcontractors will need to create a new plan every time they are required to submit information under the MWI clause. This results in an estimated average triennial recordkeeping burden on all contractors and subcontractors with fewer than 50 employees over the next three years of 2,000 hours (80 respondents \times 25 hours per respondent), with an annual burden of 667 hours.

As with larger entities, FHFA estimates that it will take each contractor and subcontractor with fewer than 50 employees approximately one hour to retrieve, review, and submit the documentation specified in the MWI Clause. Thus, FHFA estimates that the average triennial reporting burden on all contractors and subcontractors with fewer than 50 employees will be 80 hours (80 respondents \times 1 hour per respondent), with an annual burden of 28 hours.

E. Comment Request

FHFA requests written comments on the following: (1) whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
