SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Pre-embarkation Certificate of Disinsection, DD Form X773; OMB Control Number 0704-XXXX.

Needs and Uses: The information collection requirement is necessary to provide proof of aircraft disinsection to foreign countries that require it, before cargo and aircrew will be allowed to dis-embark in those countries.

Affected Public: Individuals or households.

Annual Burden Hours: 166.67.

Number of Respondents: 1,000.

Responses per Respondent: 1.

Annual Responses: 1,000.

Average Burden per Response: 10 minutes.

Frequency: On occasion.

Respondents are DoD-contracted pest managers. These pest management professionals would be required to fill out the certificate of disinsection, log it in the appropriate database, and provide a copy to the aircrew. Aircraft disinsection (spraying with insecticide to kill all insects aboard) is currently required in 14 countries for arriving military aircraft. Most of those countries also require documentation proving that the aircraft was disinfected, per their instructions in the Foreign Clearance Guide (FCG). The burden for this collection is calculated based on the number of times U.S. aircraft currently enter countries with the requirement to produce a certificate of disinsection. The certificates used, are unique to each of the countries with the requirement. They are not collections managed by the U.S. Government. The Armed Forces Pest Management Board (AFPMB) published Technical Guide (TG) for pest managers and aircrew to follow. This guide standardizes our requirements for disinsection in the FCG for all countries our aircraft enter. One such requirement is the use of a standardized form by all DoD that satisfies the documentation requirements of disinsection for these 14 countries.

POLICY JUSTIFICATION

Kingdom of Saudi Arabia—Navy Blanket Order Training

The Kingdom of Saudi Arabia has requested the continuation of a naval blanket order training program inside and outside of Saudi Arabia that includes, but is not limited to English Language training, professional military education, technical training, publications and technical documentation, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated value is \$250 million.

This proposed sale will enhance the foreign policy and national security objectives of the United States by helping to improve the security of a

strategic regional partner that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will enable Saudi Arabia and the Royal Saudi Naval Force (RSNF) to maintain military performance levels and provide an increased ability to meet current and future maritime threats. The training will support the RSNF in its role patrolling and providing protection for critical industrial infrastructure and for the sea lines of communications. The RSNF will also use the training to enhance interoperability with the United States and other coalition maritime forces. Saudi Arabia will have no difficulty absorbing these services.

The proposed sale of this training will not alter the basic military balance in the region.

The prime contractor will be Kratos Defense & Security Solutions of San Diego, CA. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the assignment of approximately 88 contractor representatives to Saudi Arabia for approximately three years to support personnel training. Implementation of this sale will not require the assignment of any additional U.S. Government representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Responses per Respondent: 1.

Annual Responses: 18,000.

Average Burden per Response: 10 minutes.

Annual Burden Hours: 3,000 hours.

Needs and Uses: The information collection requirement is necessary for Federal Voting Assistance Program (FVAP), an agency of the Department of Defense, to fulfill the mandate of the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA of 1986 [42 U.S.C. 1973ff]). UOCAVA requires a statistical analysis report to the President and Congress on the effectiveness of assistance under the Act, a statistical analysis of voter participation, and a description of State/Federal cooperation. The data obtained through this study will allow FVAP to refine its methodology for estimating the number of overseas U.S. civilians who are eligible to vote and who have registered and participated in the past, and using these estimates to address the question of whether the registration and voting propensity of the overseas civilian population differs from that of a comparable domestic or military populations. Conducting this research will help FVAP meet its federal and congressional mandates in terms of reporting annually on its activities and on overall voter registration and participation rates after each Presidential election. The data obtained through this study is also intended to provide insights into existing barriers to UOCAVA voting and recommendations for addressing these challenges.

Affected Public: Individuals or households.
