BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD–2013–OS–0115]

Privacy Act of 1974; System of Records; Correction

AGENCY: National Geospatial-Intelligence Agency, DoD.

ACTION: Notice to alter a System of Records; correction.

SUMMARY: On June 13, 2013 (78 FR 35606–35607), DoD published a notice altering a Privacy Act System of Records notice (NGA–013, National Geospatial-Intelligence Agency (NGA) Inspector General Investigative and Complaint Files). Subsequent to the publication of that notice, DoD discovered that the “Routine uses of records maintained in the system, including categories of uses and the purposes for such uses” paragraphs were not included. This notice corrects that omission.

FOR FURTHER INFORMATION CONTACT: National Geospatial-Intelligence Agency (NGA), ATTN: Security Specialist, Mission Support, MSRS P–12, 7500 GEOINT Drive, Springfield, VA 22150.

SUPPLEMENTARY INFORMATION: The National Geospatial-Intelligence Agency notices for systems of records subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Defense Privacy and Civil Liberties Web site at <http://dpclo.defense.gov/privacy/SORNs/component/ngia/index.html>.

The proposed system report, as required by 5 U.S.C. 552a(r) of the Privacy Act of 1974, as amended, was submitted on May 17, 2013, to the House Committee on Oversight and Government Reform, the Senate Committee on Governmental Affairs, and the Office of Management and Budget (OMB) pursuant to paragraph 4c of Appendix I to OMB Circular No. A–130, “Federal Agency Responsibilities for Maintaining Records About Individuals,” dated February 8, 1996 (February 20, 1996, 61 FR 6427).

Dated: July 16, 2013.

Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

NGA–013

SYSTEM NAME:

National Geospatial-Intelligence Agency (NGA) Inspector General Investigative and Complaint Files.

On June 13, 2013 (78 FR 35606–35607), DoD published a notice altering a Privacy Act System of Records notice (NGA–013, National Geospatial-Intelligence Agency (NGA) Inspector General Investigative and Complaint Files). Subsequent to the publication of that notice, DoD discovered that a new routine use was omitted. On page 35607, in the first column, immediately following the Purpose(s) paragraph, insert the following paragraphs to read as follows:

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USES AND THE PURPOSES FOR SUCH USES:

Delete entry and replace with “In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act of 1974, as amended, these records may be specifically disclosed outside of the DoD as a routine use pursuant to 5 U.S.C. a(b)(3) as follows:

The DoD Blanket Routine Uses that appear at the beginning of NGA’s compilation of systems of records notices may apply to this system.

NGA may share information contained in this system with U.S. intelligence agencies related to investigations, criminal activity or evidence of waste, fraud and abuse.”

Department of the Army; U.S. Army Corps of Engineers

Notice of Intent To Prepare a Draft Environmental Impact Statement for the Whittier Narrows Dam Safety Modification Study Report

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DOD.

ACTION: Notice of Intent.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), the U.S. Army Corps of Engineers, Los Angeles District (Corps) intends to prepare an Environmental Impact Statement (EIS) for the Whittier Narrows Dam Safety Modification Study (DSMS).

Whittier Narrows Dam is located approximately 12 miles east of downtown Los Angeles, Los Angeles County, CA. The DSMS will evaluate alternatives to remediate safety concerns such as dam settling, seismic damages, and seepage. The DSMS will identify risk reduction measures that would be implemented to reduce life loss and property damage downstream in the event of a dam failure.

SUPPLEMENTARY INFORMATION:

1. Background Information.

Construction of Whittier Narrows Dam was completed in 1957 as an integral component of the Los Angeles County Drainage Area system of dams and channelized rivers authorized by Congress in the Flood Control Act of 1936. After almost 60 years of settlement and damage from seismic events, the Corps has determined that the Whittier Narrows Dam has a high risk of failure due to significant seismic, seepage, and hydrologic issues. The DSMS and EIS would identify and evaluate alternatives to remedy these deficiencies. In the interim, the Corps has implemented several measures including: emergency management preparedness, remote monitoring, increased inspections, pre-positioning of materials for flood fighting, and updated flood mapping.

2. Preliminary Alternatives. The DSMS and EIS will identify and evaluate an array of remediation alternatives including: (1) Raising the crest elevation of the dam by 5 feet with a 5 foot high parapet wall on top of the crest; (2) constructing a weir in the embankment to allow smaller flood events to flow over the weir; (3) placing a fuseplug by taking out a section of the embankment and filling it with a concrete wall that would break at a lower elevation of water; and (4) removing sediment and deepening Santa Fe Dam Basin which is located upstream of the Whittier Narrows Dam to increase upstream holding capacity.

3. Preliminary NEPA Scope of Analysis. The EIS will also evaluate the impacts of alternatives on environmental resources. Resources initially identified in the NEPA scope of analysis as potentially significant without implementation of mitigation measures include, but are not limited to: water quality, noise and vibration, air quality, socioeconomic and environmental justice, land use, recreation, visual and aesthetic resources, traffic and transportation, historical and cultural resources, vegetation and wildlife, and special status species.

4. NEPA Scoping Meeting: A public scoping meeting is preliminarily
