SUPPLEMENTARY INFORMATION:

I. Abstract

NOAA proposes to collect socioeconomic data from commercial fishermen in the Gulf of Mexico shrimp fishery who hold a permit for shrimp fishing in federal waters (U.S. Exclusive Economic Zone). Information about revenues, variable and fixed costs, capital investment and other socioeconomic information will be collected. This data complements other data already collected and is needed to conduct socioeconomic analyses that will improve the management of the shrimp fishery and to satisfy legal requirements. The data will be used to assess how fishermen will be impacted and respond to federal regulation likely to be considered by fishery managers. In addition, this data will be used to determine how fishing communities will be impacted by proposed fishing regulations.

The Olympic Coast National Marine Sanctuary Advisory Council was established in December 1998 to assure continued public participation in the management of the sanctuary. Serving in a volunteer capacity, the advisory council's 15 voting members represent a variety of local user groups, as well as the general public. In addition, five Federal Government agencies and one federally funded program serve as non-voting, ex officio members. Since its establishment, the advisory council has played a vital role in advising the sanctuary and NOAA on critical issues.
