

and times to include this information, the average movie theater firm will spend 8.7 hours annually ((10 minutes/week × 52 weeks/year) ÷ 60 minutes/hour) complying with this requirement.

The Department expects that the annual public burden hours for

disclosing this information will total (1,813 respondents × 8.7 hours/year) 15,713 hours.

Yearly costs to industry are estimated to be \$0, as updates to communications and advertisements listing digital movie showings and times are normal tasks

performed by movie theater personnel and any additional work related to this public disclosure requirement is minimal (e.g., adding symbols to indicate the availability of closed movie captioning and audio description next to a digital movie title).

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities; Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed “reinstatement without change” of the “Current Population Survey (CPS) Displaced Worker, Job Tenure, and Occupational Mobility Supplement” to be conducted in January 2026 and January 2028. A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before September 23, 2025.

ADDRESSES: Send comments to Morgan Scheinin, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Morgan Scheinin, BLS Clearance Officer, at 202–691–7628 (this is not a toll free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The CPS Displaced Worker, Job Tenure, and Occupational Mobility supplement is conducted biennially and was last collected in January 2024.

This supplement will gather information on workers who have lost or left their jobs because their plant or company closed or moved, there was insufficient work for them to do, or their position or shift was abolished. Data will be collected on the extent to which displaced workers received advance notice of job cutbacks or the closing of their plant or business. For those workers who have been reemployed, the supplement will gather data on the types of jobs they found and will compare current earnings with those from the lost job. The incidence and nature of occupational changes in the preceding year will be queried. The survey also probes for the length of time

workers (including those who have not been displaced) have been with their current employer. Additional data to be collected include information on the receipt of unemployment compensation, the loss of health insurance coverage, and the length of time spent without a job.

Because this supplement is part of the CPS, the same detailed demographic information collected in the CPS will be available on respondents to the supplement. Comparisons will be possible across characteristics such as sex, race and ethnicity, age, and educational attainment of the respondent.

The information collected by this survey will be used to determine the size and nature of the population affected by job displacements and the needs and scope of programs serving adult displaced workers. It also will be used to assess employment stability by determining the length of time workers have been with their current employer and estimating the incidence of occupational change over the course of a year. Combining the questions on displacement, job tenure, and occupational mobility will enable analysts to obtain a more complete picture of employment stability.

II. Current Action

Office of Management and Budget clearance is being sought for the CPS Displaced Worker, Job Tenure, and Occupational Mobility Supplement to the CPS. This request is to reinstate this supplement to the CPS, which has been routinely collected biennially since 1984 to collect information on workers who were displaced from their jobs and to measure employee tenure.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
