To qualify as a surety on a Government bond, the individual must show a net worth not less than the penal amount of the bond on the SF 28. It is an elective decision on the part of the maker to use individual sureties instead of other available sources of surety or sureties for Government bonds. These regulations implement the statutory requirements of the Miller Act (40 U.S.C. 3131-3134), which requires performance and payment bonds for any construction contract exceeding \$100,000, unless it is impracticable to require bonds for work performed in a foreign country, or it is otherwise authorized by law. In addition, the regulations implement the note to 40 U.S.C. 3132, entitled "Alternatives to Payment Bonds Provided by the Federal Acquisition Regulation," which requires alternative payment protection for construction contracts that exceed \$25,000 but do not exceed \$100,000. Although not required by statute, under certain circumstances the FAR permits the Government to require bonds on other than construction contracts.

**SUPPLEMENTARY INFORMATION:****A. Purpose**

United States laws impose duties on foreign supplies imported into the customs territory of the United States. Certain exemptions from these duties are available to Government agencies. These exemptions are used whenever the anticipated savings outweigh the administrative costs associated with processing required documentation. When a Government contractor purchases foreign supplies, it must notify the contracting officer to determine whether the supplies should be duty-free. In addition, all shipping documents and containers must specify certain information to assure the duty-free entry of the supplies.

The contracting officer analyzes the information submitted by the contractor
