SUPPLEMENTARY INFORMATION:

I. Abstract and Request for Comments

NCUA is reinstating the collection for 3133-0059. The information is collected by a credit union's supervisory committee or its designated representative, through a supervisory committee audit which is required at least once every calendar year covering the period since the last audit. The information is used by both the credit union and the NCUA to ensure through audit testing that the credit union's assets, liabilities, equity, income, and expenses exist, are properly valued, controlled and meet ownership, disclosure and classification requirements of sound financial reporting. A written report on the audit must be made to the board of directors and, if requested, NCUA. Working papers must be maintained and made available to NCUA. The methods that may be used for member account verifications—100 percent verification or statistical sampling—are set forth. The supervisory committee must retain a record of the account verifications. These requirements are also applicable to federally insured state-chartered credit unions.

The NCUA requests that you send your comments on this collection to the location listed in the addresses section. Your comments should address: (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as through the use of automated collection techniques or other forms of information technology. It is NCUA's policy to make all comments available to the public for review.

SUPPLEMENTARY INFORMATION:

I. Abstract and Request for Comments

NCUA is reinstating a previously approved collection of information for 12 CFR 701.31, Nondiscrimination Requirements in Real Estate-Related Lending, Appraisals, and Advertising. Section 701.31 implements requirements of the Fair Housing Act, 42 U.S.C. 3601 *et seq.* It requires each Federal credit union (FCU) to maintain a copy of the real estate appraisal used to support an applicant's real estate-related loan application and to make it available to any requesting member/applicant for a period of 25 months. It also requires an FCU using geographic factors in evaluating real estate-related loan applications to disclose such fact on the appraisal, along with a statement demonstrating the necessity of using such factors. The FCU retains the appraisal with the noted factors in its records to prove compliance with nondiscrimination statutes and regulations. The FCU's borrowers and NCUA use the information to determine whether the FCU discriminates against certain borrowers. This regulation ensures compliance with the Fair Housing Act anti-redlining requirements.

The real estate appraisal is an integral part of most real estate-related loan transactions. The appraisal, factors affecting the appraisal, and record retention are all routinely included in most real estate-related loan transactions as a usual and customary industry practice. Therefore, any cost in time for the FCU is minimal. NCUA estimates that the time required for this collection of information is approximately one hour per year for each FCU. As of July 2, 2013, there were 4,220 FCUs that could make real estate-related loans. One hour $\times$ 4,220 respondents/recordkeepers = 4,220 total annual burden hours. NCUA does not believe that FCUs will incur any additional costs as a result of the recordkeeping requirement.

NCUA requests that you send your comments on the information collection requirement under section 701.31 to the locations listed in the addresses section. Your comments should address: (a) The necessity of the information collection for the proper performance of NCUA, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents such as through the use of automated collection techniques or other forms of information technology. It is NCUA's policy to make all comments available to the public for review.
