

The Travel Request Worksheet is also used to initiate the relocation process. Upon receipt of the Travel Request Worksheet, the NHSC will review and

approve the request and promptly notify the NHSC contractor authorizing the funding for the relocation.

Estimates of annualized reporting burden are as follows:

Type of Respondent	Number of respondents	Responses per respondent	Hours per response	Total burden hours
Health Care Professionals	311	1	.066	21

Send comments to Susan G. Queen, Ph.D., HRSA Reports Clearance Officer, Room 11A-33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. written comments should be received within 60 days of this notice.

Dated: October 15, 2002.

Jane M. Harrison,

Director, Division of Policy Review and Coordination.

Proposed Collection; Comment Request; Training Tomorrow's Scientists: Linking Minorities and Mentors Through the Web

SUMMARY: In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the Office of Behavioral and Social Sciences Research (OBSSR), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection

Title: Training Tomorrow's Scientists: Linking Minorities and Mentors Through the Web. *Type of Information Collection Request:* REVISION, OMB control number 0925-0475, Expiration Date 1/31/2003. *Need and Use of Information Collection:* This website allows federally-funded researchers supported by any of the 27 Institutes and Centers of the NIH to submit an electronic form describing his or her research areas, as well as interests in mentoring minority students or junior faculty. The researcher's description is posted on the website for searching by interested minority applicants. Minority students or junior faculty search the website to identify researchers with whom they would like to work. The

research projects in the database are located all over the country and involve cutting edge research activities by scientists funded through the Institutes and Centers of the NIH. These research projects range from studies of children to research on older adults, from laboratory research to field research, from social research to a combination of biological and behavioral research. Applicants conduct an electronic search using categories such as research areas of interest, desired geographic location of the researcher, and their level of education. The primary objective of the program is to ensure that, in the coming decades, a concentration of minority researchers will be available to address behavioral and social factors important in improving the public health and eliminating racial disparities. Increasing the number of minority scientists in the U.S. will expand our currently limited knowledge about the epidemiology and treatment of diseases in minority population. *Frequency of Response:* On occasion. *Affected Public:* Individuals or households. *Type of Respondents:* Students, Post-doctorals, Junior Faculty, and Principal Investigators. The annual reporting burden is as follows: *Estimated Number of Respondents:* 50; *Estimated Number of Responses per Respondent:* 1; *Average Burden Hours Per Response:* 10 minutes; and *Estimated Total Amount Burden Hours Requested:* 8. There is no annualized cost to respondents. There are no Capital Costs, Operating Costs and/or Maintenance Costs to report.

Request for Comments

Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be

collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

For Further Information Contact: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Ms. Dana Sampson, Program Analyst, OBSSR, OD NIH, Building 1, Room 256, 1 Center Drive, Bethesda, MD 20892, or call non-toll-free number (301) 402-1146 or E-mail your request, including your address to: SampsonD@od.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60-days of the date of this publication.

John Jarman,

Executive Officer, Office of the Director, National Institutes of Health.
